

List of Priority Programs and Projects in the 2017-2022 Public Investment Programs (PIP)*
Chapter 19: Accelerating Infrastructure Development

Nr	Project Code	Project Title	Implementing Agencies		PDP Chapter	Description	Spatial Coverage		Mode of Implementation	Implementation Period		Investment Targets (in PhP Exact Amount)						
			Mother Agency	Attached Agency			Main	Region		Start	End	2017	2018	2019	2020	2021	2022	Total (2017-2022)
1	DOTC-0208	(Aviation) Airport Development, Operations and Maintenance Projects, Bacolod-Silay, Davao, Iloilo, Laguindingan and New Bohol (Panglao) - Unbundled Projects	DOTC		chapter 19	Development, Operations and Maintenance of the Laguindingan, Davao, New Bohol (Panglao), Iloilo and Bacolod Airports. It also provides additional facilities and other necessary improvements to enhance safety, security, access, passenger and cargo movement efficiency, and operational efficiency at the airport excluding Air Traffic Control, Air Navigation Services and their associated services.	Inter-regional	Region VI, Region VII, Region X, Region XI	PPP	2017	2052	-	-	-	-	-	-	-
2	DOTC-0292	(Aviation) Alabat Airport Development Project	DOTC		chapter 19	Improvement of airport facilities to enhance safety of GA operations	Region-Specific	Region IVA	LFP	2019	2019	-	-	33,728,000.00	-	-	-	33,728,000.00
3	DOTC-0223	(Aviation) Alaminos Airport Project	DOTC		chapter 19	Construction of perimeter fence (10,300lm/ 4,120 bays) barbed wire with concrete post	Region-Specific	Region I	LFP	2018	2018	-	28,840,000.00	-	-	-	-	28,840,000.00
4	DOTC-0332	(Aviation) Antique Airport Development Project	DOTC		chapter 19	Upgrade of airport facilities to support general aviation operations and possible resumption of scheduled operations	Region-Specific	Region VI	LFP	2016	2017	140,000,000.00	-	-	-	-	-	140,000,000.00
5	DOTC-0330	(Aviation) Bacon Airport Development Project	DOTC		chapter 19	Construction of perimeter fence (barbed wire with concrete post)	Region-Specific	Region V	LFP	2019	2019	-	-	5,600,000.00	-	-	-	5,600,000.00
6	DOTC-0254	(Aviation) Baler Airport Development Project	DOTC		chapter 19	Improvement of airport facilities to support traffic growth and enhance safety of general aviation operations	Region-Specific	Region III	LFP	2017	2018	320,000,000.00	-	-	-	-	-	320,000,000.00
7	DOTC-0224	(Aviation) Basco Airport Development Project	DOTC		chapter 19	Improvement of airport to enhance safety and efficiency of operations	Region-Specific	Region II	LFP	2016	2020	-	145,000,000.00	-	32,000,000.00	-	-	177,000,000.00
8	DOTC-0207	(Aviation) Bicol (New Legaspi) International Airport	DOTC		chapter 19	Development of airport at Daraga to replace the existing Legaspi Airport, that can accommodate bigger aircraft and service the growing volume of passengers in the Bicol region.	Region-Specific	Region V	LFP	2007	2020	674,680,000.00	889,680,000.00	-	-	-	-	1,564,360,000.00
9	DOTC-0339	(Aviation) Biliran Airport Development Project	DOTC		chapter 19	Construction of community airport terminal and VPA	Region-Specific	Region VIII	LFP	2018	2019	-	7,200,000.00	11,500,000.00	-	-	-	18,700,000.00
10	DOTC-0351	(Aviation) Bislig Airport Development Project	DOTC		chapter 19	Construction/rehabilitation of landside facilities	Region-Specific	Region XIII	LFP	2018	2020	-	9,500,000.00	-	7,000,000.00	-	-	16,500,000.00
11	DOTC-0336	(Aviation) Borongan Airport Development Project	DOTC		chapter 19	Improvement of airport facilities to provide alternate access to Easter Samar	Region-Specific	Region VIII	LFP	2018	2018	-	22,266,000.00	-	-	-	-	22,266,000.00
12	DOTC-0308	(Aviation) Brooke's Point Airport Development Project	DOTC		chapter 19	Improvement of airport's runway condition	Region-Specific	Region IVB	LFP	2018	2018	-	50,400,000.00	-	-	-	-	50,400,000.00
13	DOTC-0218	(Aviation) Bukidnon Airport Development Project	DOTC		chapter 19	Establishment of new airport at Maray-Maray, Don Carlos, Bukidnon to accommodate turbo prop aircraft commercial operations and provide air transportation alternate access to the area.	Region-Specific	Region X	LFP	2017	2021	234,000,000.00	425,000,000.00	456,428,000.00	514,000,000.00	-	-	1,629,428,000.00
14	DOTC-0326	(Aviation) Bulan Airport Development Project	DOTC		chapter 19	Construction of perimeter fence (barbed wire with concrete post)	Region-Specific	Region V	LFP	2019	2020	-	-	5,600,000.00	2,000,000.00	-	-	7,600,000.00

Chapter 19: Accelerating Infrastructure Development

Nr	Project Code	Project Title	Implementing Agencies		PDP Chapter	Description	Spatial Coverage		Mode of Implementation	Implementation Period		Investment Targets (in PhP Exact Amount)						
			Mother Agency	Attached Agency			Main	Region		Start	End	2017	2018	2019	2020	2021	2022	Total (2017-2022)
15	DOTC-0222	(Aviation) Busuanga Airport Development Project	DOTC		chapter 19	The project aims to improve the capacity of the airport to meet the expected increase of air traffic in Northern Palawan, particularly in the Calamian Group of Islands and its influence area.	Region-Specific	Region IVB	LFP	2017	2020	-	726,320,000.00	710,333,000.00	774,380,000.00	-	-	2,211,033,000.00
16	DOTC-0352	(Aviation) Butuan Airport Development Project	DOTC		chapter 19	Grading of runway side strip	Region-Specific	Region XIII	LFP	2018	2018	-	184,000,000.00	-	-	-	-	184,000,000.00
17	DOTC-0347	(Aviation) Cagayan de Oro (Sangley-Lumbia) Airport	DOTC		chapter 19	Budgetary requirements for the Sangley-Lumbia land swap project	Region-Specific	Region X	LFP	2017	2017	175,000,000.00	-	-	-	-	-	175,000,000.00
18	DOTC-0250	(Aviation) Calayan Airport Development Project	DOTC		chapter 19	Provision of necessary facilities for air transport services	Region-Specific	Region II	LFP	2016	2018	-	33,675,000.00	-	-	-	-	33,675,000.00
19	DOTC-0337	(Aviation) Calbayog Airport Development Project	DOTC		chapter 19	Upgrading of the airport to accommodate jet aircraft operation	Region-Specific	Region VIII	LFP	2015	2019	125,000,000.00	245,000,000.00	102,756,000.00	-	-	-	472,756,000.00
20	DOTC-0348	(Aviation) Camiguin Airport Development Project	DOTC		chapter 19	Completion of runway slope correction	Region-Specific	Region X	LFP	2018	2018	-	100,000,000.00	-	-	-	-	100,000,000.00
21	DOTC-0341	(Aviation) Catarman Airport Development Project	DOTC		chapter 19	Grading of runway side strip	Region-Specific	Region VIII	LFP	2020	2020	-	-	-	46,300,000.00	-	-	46,300,000.00
22	DOTC-0340	(Aviation) Catbalogan Airport Development Project	DOTC		chapter 19	Construction of perimeter fence and runway strip grade correction	Region-Specific	Region VIII	LFP	2018	2018	-	30,000,000.00	-	-	-	-	30,000,000.00
23	DOTC-0235	(Aviation) Cauayan Airport Development Project	DOTC		chapter 19	Improvement of airport to enhance safety and efficiency of operations	Region-Specific	Region II	LFP	2015	2018	100,000.00	306,400,000.00	-	-	-	-	306,500,000.00
24	DOTC-0402	(Aviation) Clark International Airport Development Project	BCDA		chapter 19	Upgrading of Airfield Ground Lighting System (AGLS) and replacement of secondary surveillance radar	Region-Specific	Region III	LFP	2018	2018	5,293,745,212.00	8,049,690,310.00	-	-	-	-	13,343,435,522.00
25	DOTC-0353	(Aviation) Cotabato Airport Development Project	DOTC		chapter 19	Improvement of airport facilities at the airside and landside	Region-Specific	ARMM	LFP	2015	2018	340,550,000.00	161,000,000.00	-	-	-	-	501,550,000.00
26	DOTC-0290	(Aviation) Cuyo Airport Development Project	DOTC		chapter 19	Upgrading of necessary airport facilities to enhance safety of air taxi operations	Region-Specific	Region IVB	LFP	2018	2020	-	84,000,000.00	33,991,000.00	21,500,000.00	-	-	139,491,000.00
27	DOTC-0226	(Aviation) Davao International Airport Development Project	DOTC		chapter 19	Rehabilitation/expansion of Passenger Terminal Building	Region-Specific	Region XI	LFP	2018	2018	-	40,000,000.00	-	-	-	-	40,000,000.00
28	DOTC-0343	(Aviation) Dipolog Airport Development Project	DOTC		chapter 19	Improvement of airside facilities	Region-Specific	Region IX	LFP	2016	2020	-	182,000,000.00	170,000,000.00	40,000,000.00	-	-	392,000,000.00

Chapter 19: Accelerating Infrastructure Development

Nr	Project Code	Project Title	Implementing Agencies		PDP Chapter	Description	Spatial Coverage		Mode of Implementation	Implementation Period		Investment Targets (in PhP Exact Amount)						
			Mother Agency	Attached Agency			Main	Region		Start	End	2017	2018	2019	2020	2021	2022	Total (2017-2022)
29	DOTC-0262	(Aviation) Dumaguete Airport Development Project	DOTC		chapter 19	Improvement of existing airport and relocation of airport to Municipality of Bacong in the short to medium term to accommodate jet aircraft scheduled operations, to provide a more efficient and safe airport operations.	Region-Specific	Region VI	LFP	2018	2021	185,000,000.00	300,000,000.00	1,374,583,000.00	1,764,604,000.00	-	-	3,624,187,000.00
30	DOTC-0342	(Aviation) Ipil Airport Development Project	DOTC		chapter 19	Improvement of airport facilities to enhance safety of GA operations and support possible scheduled airline operations	Region-Specific	Region IX	LFP	2016	2020	50,000,000.00	18,300,000.00	29,960,000.00	8,100,000.00	-	-	106,360,000.00
31	DOTC-0237	(Aviation) Ibayat Airport Development Project	DOTC		chapter 19	To improve airport facilities and support air transport as alternate access	Region-Specific	Region II	LFP	2020	2020	-	-	-	10,000,000.00	-	-	10,000,000.00
32	DOTC-0354	(Aviation) Jolo Airport Development Project	DOTC		chapter 19	Construction of powerhouse and construction of a 4-storey FSS Building	Region-Specific	ARMM	LFP	2018	2018	-	20,000,000.00	-	-	-	-	20,000,000.00
33	DOTC-0335	(Aviation) Kabankalan Airport Development Project	DOTC		chapter 19	Initial construction of runway to support eco-tourism growth and provide as alternate access in the area	Region-Specific	Region VII	LFP	2017	2020	30,000,000.00	-	35,000,000.00	45,000,000.00	-	-	110,000,000.00
34	DOTC-0217	(Aviation) Kalibo International Airport Development Project	DOTC	CAAP	chapter 19	Development of the existing airport to international standards including new landside facilities and air navigation facilities	Region-Specific	Region VI	LFP	2017	2021	-	920,000,000.00	1,700,110,000.00	2,211,250,000.00	-	-	4,831,360,000.00
35	DOTC-0211	(Aviation) Laoag International Airport Development Project	DOTC		chapter 19	Expansion/improvement of existing airport to comply with national and international standards and recommended practices (CAAP MoS and ICAO) to enhance safety and efficiency of airport operations.	Region-Specific	Region I	LFP	2017	2020	128,000,000.00	1,096,500,000.00	1,522,000,000.00	1,195,000,000.00	-	-	3,941,500,000.00
36	DOTC-0344	(Aviation) Liloy Airport Development Project	DOTC		chapter 19	Upgrading of airport facilities to enhance safety of GA operations	Region-Specific	Region IX	LFP	2019	2019	-	-	68,975,000.00	-	-	-	68,975,000.00
37	DOTC-0267	(Aviation) Lubang Airport Development Project	DOTC		chapter 19	Improvement of airport facilities to enhance safety and efficiency of general aviation operations	Region-Specific	Region IVB	LFP	2018	2020	-	17,500,000.00	11,100,000.00	20,000,000.00	-	-	48,600,000.00
38	DOTC-0225	(Aviation) Maasin Airport Development Project	DOTC		chapter 19	Improvement of the airport to support general aviation and possible scheduled airline operation in Southern Leyte Province.	Region-Specific	Region VIII	LFP	2016	2020	60,000,000.00	122,000,000.00	-	-	-	-	182,000,000.00
39	DOTC-0304	(Aviation) Mamburao Airport Development Project	DOTC		chapter 19	Rehab./improvement of Passenger Terminal Building	Region-Specific	Region IVB	LFP	2018	2018	-	115,764,000.00	-	-	-	-	115,764,000.00
40	DOTC-0401	(Aviation) Marinduque Airport Development Project	DOTC		chapter 19	Completion of concreting of runway to complete the 1,508m x 30m runway length	Region-Specific	Region IVB	LFP	2018	2018	-	10,000,000.00	-	-	-	-	10,000,000.00
41	DOTC-0212	(Aviation) Masbate Airport Development Project	DOTC		chapter 19	Development of existing airport to enhance safety of operation and study the possible relocation of the airport to new site in the future	Region-Specific	Region V	LFP	2018	2022	25,500,000.00	50,000,000.00	327,000,000.00	500,000,000.00	-	-	902,500,000.00
42	DOTC-0219	(Aviation) M'lang Airport Development Project	DOTC		chapter 19	Development of existing airport to enhance safety of operation and study the possible relocation of the airport to new site in the future	Region-Specific	Region XII	LFP	2019	2022	-	80,000,000.00	50,000,000.00	50,000,000.00	-	-	180,000,000.00

Chapter 19: Accelerating Infrastructure Development

Nr	Project Code	Project Title	Implementing Agencies		PDP Chapter	Description	Spatial Coverage		Mode of Implementation	Implementation Period		Investment Targets (in PhP Exact Amount)						
			Mother Agency	Attached Agency			Main	Region		Start	End	2017	2018	2019	2020	2021	2022	Total (2017-2022)
43	DOTC-0216	(Aviation) Naga Airport Development Project	DOTC		chapter 19	Construction of new Naga Airport (Reoriented)	Region-Specific	Region V	LFP	2016	2020	-	969,701,000.00	198,350,000.00	260,070,000.00	-	-	1,428,121,000.00
44	DOTC-0210	(Aviation) New Bohol (Panglao) Airport Construction and Sustainable Environment Protection Project	DOTC		chapter 19	Development of airport at Panglao Island to replace the existing Tagbilaran Airport. The new Bohol Panglao Airport will feature a two-storey PTB with floor area of approximately 13,300 square metres.	Region-Specific	Region VII	ODA-JICA	2015	2018	2,215,588,000.00	-	-	-	-	-	2,215,588,000.00
45	DOTC-0213	(Aviation) New Leyte/Tacloban Airport Development Project	DOTC		chapter 19	Development of existing airport to enhance safety of operation and study the possible relocation of the airport to new site in the future	Region-Specific	Region VIII	LFP	2018	2022	414,966,000.00	716,121,000.00	448,863,000.00	-	-	-	1,579,950,000.00
46	DOTC-0338	(Aviation) Ormoc Airport Development Project	DOTC		chapter 19	Improvement of airport facilities to enhance safety and efficiency of general aviation and scheduled airline operations	Region-Specific	Region VIII	LFP	2017	2019	85,000,000.00	128,000,000.00	20,000,000.00	-	-	-	233,000,000.00
47	DOTC-0215	(Aviation) Ozamiz City Airport Development Project	DOTC		chapter 19	Expansion of existing airport facilities to support and improve the operation of A320/A319 aircraft.	Region-Specific	Region X	LFP	2017	2021	-	436,836,000.00	150,000,000.00	-	-	-	586,836,000.00
48	DOTC-0346	(Aviation) Pagadian Airport Development Project	DOTC		chapter 19	Improvement of airport facilities to enhance safety of aircraft operations	Region-Specific	Region IX	LFP	2017	2018	8,160,000.00	84,200,000.00	-	-	-	-	92,360,000.00
49	DOTC-0249	(Aviation) Palanan Airport Development Project	DOTC		chapter 19	Improvement of airport facilities at the airside to provide safety and sustain air taxi operations	Region-Specific	Region II	LFP	2016	2018	20,000,000.00	-	-	-	-	-	20,000,000.00
50	DOTC-0280	(Aviation) Pinamlayan Airport Development Project	DOTC		chapter 19	Improvement of airport facilities to enhance safety of operations	Region-Specific	Region IVB	LFP	2019	2019	-	-	23,000,000.00	-	-	-	23,000,000.00
51	DOTC-0209	(Aviation) Puerto Princesa Airport Development Project	DOTC		chapter 19	Construction of a new passenger terminal building, cargo terminal building, improvement of runway/strip and air navigation system	Region-Specific	Region IVB	ODA-KERM-E	2014	2017	130,000,000.00	-	-	-	-	-	130,000,000.00
52	DOTC-0333	(Aviation) Roxas Airport Development Project	DOTC		chapter 19	Improvement of airport facilities at the airside to enhance safety of daytime and nighttime aircraft operations	Region-Specific	Region VI	LFP	2016	2019	-	169,000,000.00	25,000,000.00	-	-	-	194,000,000.00
53	DOTC-0312	(Aviation) San Jose (CamSur) Airport Development Project	DOTC		chapter 19	Construction of new airport to support tourism growth and provide as alternate access in the area	Region-Specific	Region V	LFP	2017	2020	40,000,000.00	200,000,000.00	551,037,000.00	337,000,000.00	-	-	1,128,037,000.00
54	DOTC-0283	(Aviation) San Jose (Mindoro) Airport Development Project	DOTC		chapter 19	Improvement of airside facilities to enhance safety of jet aircraft operations	Region-Specific	Region IVB	LFP	2016	2019	163,800,000.00	24,459,000.00	162,000,000.00	-	-	-	350,259,000.00
55	DOTC-0298	(Aviation) San Vicente Airport Development Project	DOTC		chapter 19	Strip grade correction	Region-Specific	Region IVB	LFP	2016	2018	50,000,000.00	50,000,000.00	-	-	-	-	100,000,000.00
56	DOTC-0355	(Aviation) Sanga-Sanga Airport Development Project	DOTC		chapter 19	Construction of airport facilities to support air traffic demand	Region-Specific	ARMM	LFP	2015	2020	-	300,000,000.00	181,041,000.00	5,000,000.00	-	-	486,041,000.00

447	DOE-0010	Access to Sustainable Energy Programme (ASEP) under European Union	DOE		chapter 19	<p>ASEP is a 4-year collaboration between EU and the Philippine Government that supports the Government's goal of inclusive economic growth and attainment of 90 percent household electrification by 2017 under the Philippine Development Plan and DOE's HEDP by providing basic electricity services to remote and poor households through PV mainstreaming, prepaid metering and mini-grids using RE or RE-hybrid systems in remote islands.</p> <p>The project will undertake various technical assistance in the form of policy advice, studies, trainings, and provision of tools to enhance the power sector management through capacity building of DOE and ERC towards policy and regulatory reforms, capacity building to NEA and ECs with special attention to Bangsamoro areas, advice on the least cost implementation of RE and EE strategies, and implementation of the National Energy Efficiency Roadmap, among others. Grants shall also be given for Call for Proposal to promote sustainable business models and partnerships link innovative energy solutions grids with job creation, livelihood, and productive uses especially for poor households.</p> <p>EU shall provide 60 Million Euros of grants to finance technical assistance for: i.§ Capacity building and IRC / training activities i.§ Investment grants to solar PV Mainstreaming for HH electrification, Rural Network Solar for total of 20MW of on-grid solar PV systems connected to the substations of DUs / ECs, and pre-paid metering for poor households i.§ Small scale RE projects by communities especially in Mindanao to promote livelihood and productive use activities</p> <p>Main Objective: To assist the Government of the Philippines in expanding its sustainable energy generation to meet the growing needs of its economy and provide energy access to the poor and marginalized sector in accordance with the Philippine Development Plan (PDP).</p> <p>Specific Objective: To generate more electricity from RE, increase in the efficiency of energy use, and increase access for the poor to affordable, disaster-resilient energy. As a result of ASEP's RE investments and the facilitation of RE investments by others through the ASEP interventions, at least 100,000, tentatively 150,000 poor households in remote areas will be electrified, and/or utilize innovative energy solutions. Furthermore, 20 megawatts (MW) of new clean RE generation are to be installed, and Greenhouse Gas (GHG) emissions from the equivalent to that discharged by a 50-MW coal-fired power plant are to be avoided by 2020.</p>	Nationwide		ODA-EU	2016	2019	943,435,000.00	107,163,698.00	548,144,000.00	-	-	-	1,598,742,698.00

455	NAP-0003	Acquisition of Lot and Construction of Building for NAP Off-Site Storage in Luzon	NAP		chapter 19	The project is line with R.A. No. 9470 which states that NAP shall facilitate the acquisition of a permanent and suitable building to house the country's archival holdings and public records; and establish, maintain, operate regional archives and records centers. This is essential to provide public facilities that ensure safety and security, and protection of government records. An early step in the process of providing such facilities and infrastructure is the acquisition of permanent government office. This will contribute to the motivated and energized bureaucracy with adequate means to perform their public service missions. Likewise, vital government records are better protected against the threat of climate change through acquisition of durable and concrete archival building. 464	NTC-0010	Additional Funding for improvement/ rehabilitation of a 20 year old NTC Central Office Building	DICT	NTC	chapter 19	Additional Funding for improvement/ rehabilitation of a 20 year old NTC Central Office Building in the total amount of P15M. The old building where the present NTC Central Office stands needs repainting and installation of Aluminum Cladding for the main and annex building since the existing metal cladding is not properly attached to the side of the building and therefore may fall and posed danger to passerby. This aluminum cladding is durable, hygienic, lightweight, low maintenance and recyclable. It is impervious to termites and other insects, and since it allows the wall to breathe, there is a very low risk of leaking. Also, to prevent further damage and deterioration of the building and its premises, thru wear and tear, there is a need for repainting and repair of ceiling cause by water leaks. Furthermore, in order to prevent occurrence of fire and or prevent further escalating of fire that might cause possible death and destruction of property, the Commission needs to repair/replace Fire Alarm and Fir Hydrant at the main and annex building of the NTC Central Office. 477	PSAU-0001	Agri-Business Complex	CHED	PSAU	chapter 19	PSAU saw an economic opportunity to develop its dilapidated transport terminal project into a modernized Agri-Business Complex as part of its face-lifting activities befitting its new university status. The need to develop the said area becomes more relevant as it is located at the campus grand entrance for it will serve as a show window of the University that will create a first impression on those who pass or visit PSAU. A properly designed agri-business commercial center that would house a transport terminal, fuel station, purified water station, stalls for rent and a Bagakan Center for farm produce will become a major income-generating project (IGP) of PSAU. Therefore, the proposed project would augment the resources of the university to be able to implement its worthwhile projects for instruction, research and development as well as for extension and training. It would also provide a venue for trading and marketing the produce of PSAU and farmers from its neighboring areas. In addition, the project would showcase viable enterprises development and management for students and potential entrepreneurs.	Region-Specific	Region III	LFP	2018	2018	-	20,000,000.00	-	-	-	-	20,000,000.00
478	PSAU-0002	Agricultural Crops Germplasm Center	CHED	PSAU	chapter 19	The proposed project would include a plant clinic for diagnosing and control of crop pests and diseases as well as a seed bank to store and preserve superior varieties for continuous genetic breeding purposes. It would definitely help farmers attain better yield and income through the availability of good quality certified seeds, effective and efficient pest and disease prevention and control measures to be recommended by the proposed Agricultural Crops Germplasm Center. The proposed project would contribute to the reduction of unemployment problem in the rural areas, improvement in farm productivity and profitability, and attainment of food self-sufficiency and security in the country.	Region-Specific	Region III	LFP	2019	2019	-	-	15,000,000.00	-	-	-	15,000,000.00
479	PSAU-0003	Agricultural Technology, Enterprise & Resource Complex (ATERC)	CHED	PSAU	chapter 19	The proposed project is envisioned to construct a complex that would serve as a depository and showcase for various agricultural technologies developed by PSAU. Farm technologies coupled with their complete resource requirements possessing high potentials for commercialization and significant livelihood enterprise development would be displayed in proposed project. This would allow businessmen and potential entrepreneurs (including farmers and other interested agricultural workers) to choose a possible money-making project suitable for them and their families. The proposed project would present a shopping list of promising agricultural technologies with business plans for the proper guidance of all interested visitors in search of workable agribusiness ideas. The proposed project would definitely contribute to employment generation, economic growth and development in the countryside.	Region-Specific	Region III	LFP	2020	2020	-	-	-	35,000,000.00	-	-	35,000,000.00
480	NONESCOST-0009	Agriculture Laboratory Building-Escalante Campus	CHED	NONESCOST	chapter 19	5 - Laboratory rooms w/ a total floor area of 180 sqm	Region-Specific	Region VI	LFP	2019	2019	-	-	3,600,000.00	-	-	-	3,600,000.00

481	PSAU-0004	Agro-Eco-Tourism Hostel	CHED	PSAU	chapter 19	PSAU lies on a mild sloping foothills of Mount Arayat and 15.5-kilometer-stretch from Clark Special Economic Zone. Strategically located within the proximity of Clark International Airport - the new economic hub outside Manila, the university and the cluster of adjacent communities, to include Magalang are fast becoming a converging point where nature, culture, tradition, modernity, trade and commerce meet. In terms of spatial and ecological features, PSAU is physically circumscribed by a mosaic of varied vegetation and land use system, cutting across the entire landscape continuum. On the other hand, the growing popularity of Pampanga as a tourist destination, known to have a colorful Easter Period tradition (including "Station of the Cross" in a neighboring barangay very close to PSAU), this brings multitude of visitors to the province yearly. The beautiful Arayat mountain peak for nature and thrill seekers-mountain climbers and university resort with swimming pool are potential selling points to make the entire area into a new tourist destination. With this, PSAU can become a visitors' stop over haven to appreciate its various agricultural (crops and animals) projects, wherein different native products, from food items, organic fresh farm produce to crafts and other souvenirs can be processed, displayed and sold. This can eventually turn Magalang and neighboring towns into food basket of fresh and organic farm products, thus helping to improve the local economy. The influx of visitors to PSAU would necessitate the establishment of an agro-eco-tourism hostel where they could comfortably stay for a night or two. 518	PTRI-0009	Asphalting and Improvement of Road Network and Parking Area	DOST	PTRI	chapter 19	The requested asphalting and improvements will address repairwork of patholes on the roadway worn out due to normal wear and tear since it was built in 1967. Damage in 1990 earthquake may also be noted. Vehicular traffic to and from MIRDC including increased activity of cargo trucks transporting equipment and construction materials through the PTRI gate contributed further to the deterioration of PTRI road network. PTRI tenants, DOST-MIMAROPA and CSC, and their constituent stakeholders/visitors also make use of the same road and parking system. It will also be worthy to consider that the PTRI, as a certifying government testing laboratory facility of PPA and DPWH, catering to clientele from both government and private offices/institutions, it would be proper that they experience appropriate and well-maintained premises which should be a benchmark of government institutions. 545	DPWH-0079	Basey-Maydolong Road	DPWH		chapter 19	Basey-Maydolong Road will start at Basey, Samar, and ends at Maydolong, Eastern Samar. The estimated length from Basey to the Boundary of Samar and Eastern Samar is more or less 20.00 kilometers. Then, from Boundary of Samar to Maydolong, Eastern Samar, has an estimated length of 32.00 kilometers. The said road will served as an alternate route to Borongan, Eastern Samar. The travel time from Tacloban to Borongan is 4 to 4 1/2 hours. However, if this road will be realize it will reduce travel time from 2 to 2 1/2 hours. The major scope of works involves are the opening of more or less 20.00 kilometers of road and construction of bridges. Furthermore, said road will not only served as an access road but will also served as an access road leading to tourist destinations such as Sohoton Cave and Maydolong Closed Canopy Forest Area. Hence, this proposal. This project aims to provide/build quality and safe infrastructure facilities that connects and speed up movement of people, goods and services, as well as connects Regions by integrated transport system. 806	DOE-0001	Biofuels Program	DOE		chapter 19	Appropriating funds to direct the development and utilization of domestically-produced biofuels as mandated under the Republic Act No. 9367 also known as the Biofuels Act of 2006 and other purposes. Objective: To increase the contribution of biofuels in the country's energy mix thereby reducing its dependence on imported fossil-based fuels, enhance the quality of the environment, and create opportunities for countryside socio-economic development consistent with the Philippine Energy Plan	Nationwide		LFP	2006	2019	14,241,000.00	14,521,000.00	15,973,000.00	-	-	-	44,735,000.00
807	PSAU-0005	Bio-Systems Laboratory (2nd Phase)	CHED	PSAU	chapter 19	The project will contribute to efforts aimed at strengthening agricultural development, creating and sustaining the job creation. It will also support the University mandate of primarily providing advance education, higher technological, professional instruction and training in the field of agriculture. To some extent, the project would also contribute to initiatives that manage disaster risks, involving climate change adaptation and mitigation measures. By constructing a building, the project is proposed to address the following problems: lack of state-of-the-art classrooms, laboratories and other facilities for the provision of quality instruction to our increasing student population, research and extension services. When the project becomes a reality, additional spaces for classrooms will be made available as the existing laboratories will be transferred to the new building. Classrooms are congested as they are being utilized for 60-80 students when the capacity is only for 40 students. This would also help meet the minimum requirements on laboratory equipment and facilities set by the Commission on Higher Education (CHED) for the grant of Centers of Excellence to PSAU course degree programs. 819	DPWH-0379	Braulio E. Dujali - Sto. Tomas Road (Jct. Agusan-Davao Road, Tuganay Section- B.E. Dujali-Sto. Tomas-Tagum-Panabo Circumferential Road	DPWH		chapter 19	This project is a local road with a total length of 17.00 kms and a total estimated cost of P520 Million. The project involves road concreting of gravel road including drainage structures and RROW acquisition. B.E. Dujali is one of the poorest towns of Davao del Norte, a 4th class municipality, surrounded by bigger and more progressive cities and municipalities, like Panabo City, Carmen, Tagum City and Sto. Tomas. In terms of development, the town is so left out despite its richness in agricultural product, such as rice and banana, the fact that it is a flood prone area and no national highway traversing its jurisdiction. The project is intended to connect Agusan &Circ Davao Road, Carmen Section, Davao del Norte and Tagum &Circ Panabo Circumferential road via B.E. Dujali. Once the link to the municipality will be opened, the towns great potential will also come out.	Region-Specific	Region XI	LFP	2018	2020	-	171,800,000.00	151,800,000.00	212,520,000.00	-	-	536,120,000.00
820	DPWH-0219	Brgy. Fatima, Paquibato District Going to Barangay Dalagdag - Lampianao	DPWH		chapter 19	The road starts at Jct Fatima-Dalagdag-Lampianao-Callawa Road, passing thru to Brgy. Dalagdag Road up to Brgy. Lampianao Road. The road has a total length of 7.042 km. for 3rd Congressional District, which is a rolling and mountainous terrain. And it passes thru Callawa- Mandug-Tigatto-Buhangin up to Davao City Diversion Road with a total length of 2.675 km. for 2nd Congressional District, with one (1) bridge to be constructed and Slope Protection using Gabion and Mattress at Fatima section. The project involves concreting of roads of 12.632 km, road widening from sub-standard to standard road of 4.326 km and construction of 50 Lm Bridge. This road section starts at Fatima-Dalagdag- Lampianao-Callawa Road connecting to Brgy. Dalagdag Road to Callawa Road. This scheme aims to construct road (Road opening/upgrading) with provision of Drainage structures and bridge construction at Fatima to Dalagdag section. The proposed road construction and upgrading was given preference to boost the tourism in vicinity considering that the road section will lead to Megkawayan Resort to attract both local and foreign tourist and to address the accessibility of transporting goods. 841	DFA-0020	Building Fund Project for FY 2018 & Acquisition of property to serve as Chancery, MACAU PCG	DFA		chapter 19	Implementation: World-wide/Abroad Macau SAR PCG's lease unit at AIA Tower is due to expire on 31 March 2017. The Lessor offer to renew the lease for three years for the period of 01 April 2017 to 31 March 2020. Every three (3) years there is a 62% escalation on the rental rate. The Consulate General houses four (4) attached agencies: POLO/OWWA, as well as two locally-hired personnel of SSS and Pag IBIG Fund. The ATN cases are handled in the lounge area while counseling sessions are on-going. Wedding ceremonies are also held in the same area from time to time. At present the space set-up of the Consulate General could be described as already cramped and overcrowded.	Nationwide		LFP	2018	2018	-	324,986,306.91	-	-	-	-	324,986,306.91
842	DFA-0016	Building Fund Project for FY 2018 & Renovation of Chancery Building, PARIS PE	DFA		chapter 19	Implementation: World-wide/Abroad Paris PE has initiated preliminary consultations to improve the layout of the present Chancery and make it more conducive to a more efficient work environment.	Nationwide		LFP	2018	2018	-	10,500,000.00	-	-	-	-	10,500,000.00
843	DFA-0010	Building Fund Project for FY 2018 & Restoration of Chancery to Official Residence, ROME PE	DFA		chapter 19	Implementation: World-wide/Abroad The current Chancery is located in the Zona Balduina at VialedelleMedaglieOro 112-114. It has a lot area of 600 square meters with a four-storey building constructed in the 1920s in honor of King Umberto II of Savoia. The building was purchased by the Philippines in 1997 through a loan facility guaranteed by the Philippine National Bank, London Branch. Renovations were undertaken in 1999 and 2012 to expand the consular section. Rome PE reported that there are a number of repairs needed by the building, e.g. water leaks, improving electrical installations and checking of its structural integrity. The layout of the building has been maximized via -vis the lot. It appears that no additional space could be constructed. Based on the foregoing, it is recommended that the current Chancery be restored to its original purpose of being a residence for the Ambassador. This would entail removing certain parts of the additional structures, checking its structural integrity and remodeling for a residence. 844	DFA-0015	Building Fund Project for FY 2018 & Restoration/Renovation Philippine Embassy Building; and Replace/Acquire Furniture, Fixtures and Equipment, THE HAGUE PE	DFA		chapter 19	Implementation: World-wide/Abroad The current Embassy occupied by The Hague PE is a century old building. It was acquired by the Philippine Government in 1968. Since then, no major renovation has been made for the Embassy except on the usual repairs and maintenance. The Hague PE proposed to have an expert (Highly Technical Consultant) specifically on Building restoration/renovation to check its stability. The Embassy is included in The Hague's list of monumental buildings. In addition, based on initial consultation with reputable service provider, they have found remnants of asbestos in the Building. Continuous exposure to this element is hazardous to the welfare of the Embassy Personnel including the public it serves. The Embassy needs to replace and acquire Furniture and Fixtures, office Equipment (FFE). Some of the Embassy's FFE are already obsolete and outdated. Post notes that series of security threat around Europe has substantially heightened due to the recent terror attacks, thus, the need to upgrade its security measure by installing CCTV and Alarm System. The said project will benefit the Philippine Government as a whole as it will enable the Embassy to serve its mandates and objectives especially in providing consular services to our Nationals and ensuring a healthy working environment for all. Given the above-mentioned, it is deemed more advantageous for the GOP to purchase rather than to lease real estate property in China. Diplomatic Missions in China have reciprocal arrangements for long term lease, with option for renewal/extension. ex: US and China have an Agreement for the Lease of Property for a period of 90 years, subject to renewal for 50 years with a clause providing that should the Chinese constitution allow foreign ownership in the future, both countries may buy the properties that are currently being leased to serve as their respective chanceries. 932	DPWH-0148	Camarines Sur/Albay Diversion Road incl. Bridge, Albay	DPWH		chapter 19	The Construction/Improvement of Camarines Sur-Albay Diversion Road (San Fernando-Oas Section) was proposed based on RDC Resolution No. 05-21 series of 2001 and Resolution No. 05-09 series of 2002. This Pan Philippine Highway Section directly traverses about eight (8) municipalities. It is an on-going by-pass road between San Fernando, Minalabac, Bula, Balatan, Nabua, Bato and two (2) municipalities of Albay Oas and Libon. Due to the construction of Bicol International Airport located in Aobo, Daraga, Albay, the construction of this Diversion road stretched up to Tabon-Tabon, Daraga, Albay. Hence, from Oas it will traverse the municipalities of Ligao, Guinobatan, Camalig and Daraga all of Albay. The end /exit of this road is very close to the on-going construction of Bicol International Airport located in Daraga, Albay. Infrastructure Development to support the Region's over-all development thrusts and Improve Road Safety and provide access to ecotourism destinations and support to the future development	Region-Specific	Region V	LFP	2012	2021	100,000,000.00	200,000,000.00	290,500,000.00	210,000,000.00	164,500,000.00	-	965,000,000.00

948	PalSU-0047	Capacity Building Program: Instructional Laboratory Building	CHED	PalSU	chapter 19	PSU Roxas Campus has already purchased the needed facilities and equipment for an instructional laboratory, however, the instructional laboratory itself is not available. Said deficiency of building hinders the campus from delivering state-of-the-art scientific laboratory to their students.	Region-Specific	Region IVB	LFP	2018	2018	-	5,000,000.00	-	-	-	-	5,000,000.00
949	PalSU-0016	Capacity Building Program: Instructional Laboratory Building - Priority 22	CHED	PalSU	chapter 19	It is the primary goal of the Campus to deliver quality tertiary education to our clientele by providing them scientific laboratory related learning experiences. Currently, the Campus was able to purchase gradually the needed facilities and equipment for a science laboratory. However, the lack of a scientific instructional laboratory building which will house the different science laboratory settings (i.e. life science lab, chem. lab, physics lab, English lab, I.T lab, Research lab etc.) hinders the campus to deliver state-of-the-art scientific laboratory experience to our students. Due to the financial constraints of being a self-liquidating campus, construction of a state-of-the-art scientific science laboratory building has long been part of the campus development plan hoping that time will come it will be soon realized. This project aims to provide the students a place conducive for conducting scientific laboratory experiments since learning nowadays are anchored on the concept of "learning by doing". The laboratory building will serve as a venue of the student activities that are needed in their specific courses. Establishment of an instructional laboratory building will also help the campus complied with the requirements of the AACCUPP Inc. for the level 2 survey visit on 2019 and in compliance also to the CHED requirements on our specific curricular program offerings. The Campus with no GAA budget from the government makes ends meet thru collections from the students and the annual financial aid coming from the LGU Roxas. It is such a great help in the delivery of quality services to our clientele once this project will be realized. This project will enable the campus to provide quality instruction, attain the University's mission to become the premier state university in the south-east Asia and produce competitive graduates. Hence, this proposal.	Region-Specific	Region IVB	LFP	2018	2018	-	5,000,000.00	-	-	-	-	5,000,000.00

The road section stretches 2.37 km opening. The access road will serve as an evacuation road during floods. Project objectives are: to guide and support planned urban development; reduce travel time from CDO Port to Iligan City and vice versa; to provide accessibility to CDO Central Business Districts (1st and 2nd LD); direct route for Logistics Transport from CDO Port to Iligan City and vice versa, thus decongesting the Butuan Æ Cagayan de Oro Æ Iligan Road (BCIR) □	Region-Specific	Region X	LFP	2016	2018	60,000,000.00	100,000,000.00	-	-	-	-	160,000,000.00
970	DPWH-0192	CDO-New Western Diversion Road (Canitoan CDO Coastal Road) CDO, incl. ROW and Bridge	DPWH		chapter 19	The project is a four (4) lane road and will start at Canitoan towards CDO Coastal Road at Bulua, CDOC. The road runs through a flat terrain. The proposed road stretches 5.3 km. road opening. This road was already included in October 2004 JICA Final Report on the study on Road Network Improvement for Development of Regional Growth Centers in the Philippines. Project objectives are: to reduce traffic congestion of CDO Æ Talakag Road by distributing traffic onto other major roads; improve accessibility to CBD and Port Area; to formulate flexible road network which will provide alternative routes to road users. 1001	PSAU-0016	College of Agriculture Systems and Technology (CAST) Building and Laboratory (Phase 3)	CHED	PSAU	chapter 19	The project will contribute to efforts aimed at strengthening agricultural development, creating and sustaining the job creation. It will also support the University mandate of primarily providing advance education, higher technological, professional instruction and training in the field of agriculture. To some extent, the project would also contribute to initiatives that manage disaster risks, involving climate change adaptation and mitigation measures. Lack of state-of-the-art classrooms, laboratories and other facilities for the provision of quality instruction to our increasing student population, research and extension services as well as congested classrooms which are used for 60-80 students while their capacity is only for 40 students. The project is proposed to address the said problems through the construction of a building. It would also enhance the elevation of the PSAU Bachelor of Science in Agriculture program to a Center of Excellence (COE) from presently being a Center of Development (COD) as designated by the Commission on Higher Education (CHED).	Region-Specific	Region III	LFP	2016	2018	20,000,000.00	10,000,000.00	-	-	-	-	30,000,000.00

1073	PARSU-0021	Completion of Science Laboratory Building - Lagonoy	CHED	PARSU	chapter 19	This project is in support to the university's overarching goal of excellence through innovative instructional laboratory facility provision for quality education and development of science-oriented individuals in Nutrition and Dietetics as flagship programs offered in Lagonoy Campus. Further, the project will serve as a research capacity training facility that will bring out students' skills and competencies to their optimum potential for knowledge generation in response to university's research thrust. Similarly, proposed construction will promote efficient and effective instructional service delivery to clients and ultimately will affect Partido as a whole as increase in productive is contributory to Partido area development. It is also worthwhile to note that PSU has already exerted time, money and effort with the existing one-storey Science Laboratory Building that is half finished. In this view, PSU is proposing the completion of the Science Laboratory Building.	Region-Specific	Region V	LFP	2018	2018	-	3,000,000.00	-	-	-	-	3,000,000.00

1116	PN-0004	Construction and Rehabilitation of Training Support Facilities in Cavite	DND	PN	chapter 19	<p>"This project will entail the construction and rehabilitation of barracks for military personnel who undergo training in Marine Corps Training Center of the Philippine Marine Corps and the Fleet Training and Doctrines Center of the Philippine Fleet. The majority of deployable forces of the Philippine Navy are trained at these Centers.</p> <p>This project is anchored on the idea that the capability of any modern navy ship and ground forces to fight or defend the country's territorial integrity against internal and external threats is extremely dependent on the men inside these modern ships. Enhancing or updating therefore the PN personnel's readiness and capability is of utmost importance. Whereas, the operation of Navy ships and ground forces to fight as a single unit is totally dependent on the knowledge and skills of its personnel. In order to do so, training and training support facilities that will sustain the training activities are necessary to achieve these goals.</p> <p>The construction and rehabilitation of these training support facilities aim to provide billeting spaces for trainees and training personnel. This program will ensure the increase in the capability of the Navy and most specially the capacity of its personnel. Well-trained and skilled sailors and marines develop confidence and self-respect for themselves. Their will to fight for the country is beyond question. The soldiers that can efficiently conduct naval operations will contribute to a secured maritime nation. Moreover, problems of the ground forces will surely be lessened, if not totally eliminated, if the Navy could only cover and control the sea."</p>	Region-Specific	Region IVA	TBD	2018	2018	-	76,911,450.00	-	-	-	-	76,911,450.00

List of Priority Programs and Projects in the 2017-2022 Public Investment Programs (PIP)*
Chapter 19: Accelerating Infrastructure Development

Nr	Project Code	Project Title	Implementing Agencies		PDP Chapter	Description	Spatial Coverage		Mode of Implementation	Implementation Period		Investment Targets (in PhP Exact Amount)							
			Mother Agency	Attached Agency			Main	Region		Start	End	2017	2018	2019	2020	2021	2022	Total (2017-2022)	
1119	PRC-0004	Construction of 2-storey PRC Regional Office in Cebu (Region VII)	DOLE	PRC	chapter 19	Our regional offices have been operating in leased office spaces since their establishment in 1997. In view of the PRC reorganization, and yearly increase of the number of transacting public, there is a need to construct our own building. Our regional offices contributed 62% of the total income of the agency and PRC Cebu ranked second among the regional offices in terms of income and number of transacting public. PRC Cebu Regional Office contributed 9% of the total income of the agency in 2015. The construction of a regional office building will exempt the office from rental fees, and will provide comfortable and convenient transaction area to the clients in the region and nearby provinces.	Inter-regional	Region VII, Region VIII, Region VI	LFP	2018	2022	-	99,705,805.90	24,926,451.47	-	-	-	-	124,632,257.37
1120	PRC-0003	Construction of 2-Storey PRC Regional Office in Pagadian (Region IX)	DOLE	PRC	chapter 19	Our regional offices have been operating in leased office spaces since their establishment in 1998. In view of the PRC reorganization, and yearly increase of the number of transacting public, there is a need to construct our own building. Our regional offices contributed 62% of the total income of the agency. The construction of a regional office building will exempt the office from rental fees, and will provide comfortable with convenient transaction area to the clients. The City Government of Pagadian donated a 2,767 square meter lot located at Prime Regional Center Site at Balintawak, Pagadian City through an Amended Deed of Donation dated August 27, 2015. The area shall be utilized to cater to the full of office function of the PRC Regional Office No. IX. 						site and current land valuation in the area, it is the idea of the DAP to optimize the use of this available land resource to further rationalize its intended development. The agency-office share concept allows for the DAP to include in the building development selected government institutions which can and are willing to be partners in the development of the facility. The DAP is targeting to involve and accommodate in this programmed development government agencies that the Academy believes has related functional and operational features and characteristics that can render their inclusion within the same facility as a good fit an advantage and benefit. For this development the targeted government agencies as agency-office share partners are 1) the newly created Philippine Competition Commission (PCC), 2) the Philippine Institute for Development Studies (PIDS), and 3) the Land Bank of the Philippines (LBP). These agencies have signified their intent to be DAP's partners in this project.												
1198	BI-0001	Construction of a New Bureau of Immigration Building	DOJ	BI	Chapter 19		Region-Specific	NCR	LFP	2018	2018	-	2,300,000,000.00	-	-	-	-	2,300,000,000.00
1199	MIRDC-0035	Construction of a New Cistern Tank and Upgrading of Center's Water Supply and Sanitary Lines	DOST	MIRDC	chapter 19	Part of Locally Funded Projects/Included in MIRDC GAA 2017 The construction of a new cistern tank will serve as an additional reservoir to meet the increasing water demand of the Center. Also, the existing overhead tank of the Center requires integrity check-up and rehabilitation. Rain catchment tanks will also be installed as additional source of water supply. Due to wear and tear conditions of water supply and sanitary lines, replacement and rehabilitation is recommended. Fire hydrants in each building will be installed. To meet the increasing demand for water supply, extend the useful life of the Center's overhead tank, rehabilitate the old water and sanitary lines and install fire hydrants in each building in compliance with Bureau of Fire Protection (BFP) requirements.	Region-Specific	NCR	LFP	2017	2019	8,000,000.00	8,000,000.00	15,000,000.00	-	-	-	31,000,000.00
1200	DSWD-0063	Construction of a New ICAB Office Building (Including Purchase of Office Furniture and Fixtures, Office Equipment and Rental of Office Space)	DSWD	ICAB	Chapter 19	The ICAB is mandated as the Central Authority of the Philippine government in matters relating to the inter-country adoption of Filipino children and as the policy making body for purposes of carrying out the convention requirement. As the Central Authority, it is on the cutting edge of organizational development led by a multi-disciplinary team of experts and competent staff who pro-actively respond to the demands of international adoption. The office building of a national government, more so a Central Authority such as ICAB must be presentable, accessible, and compliant to local and global standards. The ICAB proposes a new office building which will accommodate a total of sixty (60) personnel, with sufficient space requirements, provision for stock rooms, archives room (adoption files are not perpetuity/for life), training/conference and multi-purpose rooms and other structures/rooms in compliance to existing laws (Magna Carta of Women, Accessibility Law, etc.). For sufficiency in accommodation and to provide conducive work environment, space requirements in accordance with DPWH standards is determined. Minimum of 1,500 sqms. floor area space requirement is needed. The proposed ICAB building will be constructed in the existing ICAB lot with approximately 715 sqms. The new ICAB office building will have five (5) floors. The serviceable office furniture, fixtures and equipment will be recycled/used while the existing unserviceable fixed assets will be disposed in accordance to the generally accepted accounting and auditing rules and regulations. Office modular systems which are fiberglass reinforced, cleanable wall systems will be purchased and utilized to maximize space. The ICAB will be renting another office space while the construction is in process for at least six months.	Region-Specific	NCR	LFP	Mar-18	Sep-18	-	57,320,000.00	-	-	-	-	57,320,000.00

1235	NMSC-0001	Construction of Academic Building Right Wing	CHED	NMSC	chapter 19	The Academic Building Right Wing is part of the master plan to construct academic building amounting to over 120 million pesos. The construction has started decade ago. It's fourth phase (completion of the L shape) will be started this year under the GAA 2017 funding amounted to 27,467,000.00. In the next five years starting 2018, NMSC will be constructing the Academic Building Right Wing with an initial investment of 20 million pesos. The project will create more academic classrooms and laboratories for the students. Enrollment in the starting 2018 will be increasing as there are already first year college students after the implementation of the senior high school. In the institution's strategic plans, NMSC will be opening at least 15 new courses/programs. This means that the school shall prepare for the influx of students pouring in especially that the institution is the only main state college in the province of Misamis Occidental. It can also be noted that students from western part of Mindanao are enrolling in NMSC. This Academic Building Right Wing is a two-storey building consisting of 20 classrooms/laboratory rooms. 1274	PN-0001	Construction of Amphibious Assault Vehicles (AAV) Warehouse and Attendant Facilities for the Arrival of AAV by 2018	DND	PN	chapter 19	<p>The warehouse and attendant facilities that will be constructed are intended to store the incoming Amphibious Assault Vehicles (AAV) of the Philippine Marine Corps (PMC) and house the troops that it will carry.</p> <p>The acquisition of the AAVs is meant to provide the PMC with an armored vehicle capable of bringing-in troops from the amphibious vessels to the landing beach and beyond, while providing fire support when needed. These vehicles will provide the marines with tactical advantage to conduct amphibious operations and to support naval operations.</p> <p>Strategically, the warehouse and other facilities that are proposed to be constructed will be placed in San Antonio, Zambales which is the closest navy base to Alava Pier in Subic, Zambales, where deep-drafted and bigger ships of the navy such as the newly-acquired Strategic Sealift Vessel (SSV) or the BRP Tarlac will be berthed. This will ensure faster response time and will induce less operational cost.</p> <p>This project will also prevent the rapid deterioration of the new AAVs, will entail lower cost for maintenance and will not hamper the conduct of fleet-marine operations. Moreover, this will also ensure that troops that will be carried by these AAVs have their operational space and billets.</p>	Region-Specific	Region III	TBD	2018	2018	-	32,798,140.00	-	-	-	-	-	32,798,140.00

1295	PTRI-0010	Construction of Automotive Testing Center for Textile Parts and Accessories	DOST	PTRI	chapter 19	Executive Order No. 182 - Providing for a Comprehensive Automotive Resurgence Strategic (CARS) Program is being implemented by the government to revitalize the Philippine automotive industry. Improvement of the automotive industry will boost manufacturing capability of the overall industrial sector, spur growth of SMEs and create more jobs in the country. In support of this undertaking, PTRI through its testing laboratory conducts quality and performance testing of all textile related material that are used in the manufacture of cars by Honda, Toyota, Mitsubishi, etc. The laboratory could not totally address the testing demand of the industry due to limited manpower and inadequate equipment. Procurement of additional equipment and construction of a separate building to house these equipment are necessary since existing facilities are inadequate for the purpose and there is no more available space in the main building. The new building being proposed will be located inside the PTRI compound and will consist of mechanical and chemical testing laboratories suitable for testing textile-related parts/accessories of the automotive industry. 1429	OCD-0001	Construction of DRRM Training Institute	DND	OCD	chapter 19	OCD as mandated under RA 10121, sec 9 para (i) shall ensure the establishment of the National DRRM Training Institute (DRRMTI) in such location as deemed appropriate to train public and private individuals in such subject as DRRM among others and develop the National DRRM Education Training Program (NDRRMETP) by engaging the expertise of NDRRMC members in the conduct, design, and development of training programs, materials, and syllabus of the Institute to ensure that the training program and resource materials are supportive of the mandated tasks of the NDRRMC. Establishment of a DRRM Training Institute Campus by phases. It would start with the construction of Main Building and Admin Building, Academic Building, Hostel, Simulation Building, Continuing Education Center, Power House, Pump House and Motor Pool/Maintenance Centre, and Wellness Center The Institute shall also consolidate and prepare training materials and publications of DRRM books and manuals and conduct research programs to upgrade knowledge and skills and document best practices on DRRM. The Institute is also mandated to conduct periodic awareness and education programs to accommodate new elective officials and members of the LDRRMCs. It shall also ensure the integration of DRR-CCA in NDRRMETP.	Nationwide		LFP	2018	2020	-	320,000,000.00	580,000,000.00	280,000,000.00	-	-	1,180,000,000.00
1430	DSWD-0001	Construction of DSWD Field Office VI Warehouse for Regional	DSWD		chapter 19	Construction of DSWD Field Office VI Warehouse for Regional	Region-Specific	Region VI	LFP	2018	2019	-	25,000,000.00	25,000,000.00	-	-	50,000,000.00	
1431	BASC-0003	CONSTRUCTION OF EDUCATION BUILDING	CHED	BASC	chapter 19	The building will house the Education students. With the increasing number of students taking up education program there is a need to construct a building specific for them. This project is also one of the needs to be addressed when the program is taking a higher step on program reaccreditation and its quest to become a center of development/center of excellence. Likewise, the College currently needs a total of 110 classrooms in order to meet the ideal 1:35 classroom-student population ratio. However, there are only 65 classrooms available for use for FY 2016. Per data, BASC would still operate on a 1:59 classroom-student population ratio by AY 2016-2017. To address this, it sometimes becomes an option to utilize available laboratory facilities as classrooms which slightly addresses the problem which is not wise as it defeats the purpose of said structures. To fully address the current deficiency in classrooms, additional of 36 rooms will suffice the needs.	Region-Specific	Region III	LFP	2020	2020	-	-	-	40,000,000.00	-	40,000,000.00	
1432	PSHSS-OED-0087	CONSTRUCTION OF E-LEARNING HUB & MULTI-MEDIA CENTER (Library and Auditorium) - Calabarzon Region Campus	DOST	PSHSS-OED	chapter 19	This project will not only serve as library for PSHS constituents but will also be opened for the community where people such as elementary and high school students can see display and showcase of projects and researches with the help of Multi Media. They will experience how science and technology works and how knowledge of these could help in nation building.	Region-Specific	Region IVA	LFP	2018	2018	-	50,000,000.00	-	-	-	50,000,000.00

1541	RMTU-0016	Construction of Hostel cum Convention Center, Iba Campus	CHED	RMTU	chapter 19	Zambales is one of the best tourist destinations in Central Luzon because of its location gifted by whitesand beaches, mountains for exploration, wonderful people, food and festivities. It has big opportunities to hold national and international events. The problem is the province doesn't have a modern and well-equipped convention center. RMTU is proposing a world-class mango-shape hostel cum convention center that will serve as a LANDMARK not only for the province but for the country as well. This endeavor aims to boost tourism in Zambales which will generate employment and economic growth. 1658	NCIP-0011	Construction of NCIP Office Buildings	CABSEC	NCIP	chapter 19	Except for Region 5, all NCIP Offices, from Central Office to Regional and Field Offices are being rented. Taking all the rental expenses, this is too costly for the government to pay. Hence, NCIP offices exerted effort to look for lots where offices can be built. Fortunately, three regions were able to find lots, which were allocated through local government plans. With the regional offices constructed, the operational effectiveness and efficiency in service delivery improved, great cost of building rentals from meager MOOE will be relieved, cost savings from venue rentals for conferences/meetings/training/seminars will be earned to be spent for other important projects for the Indigenous Peoples.	Inter-regional	NCR, Region I, Region II, Region IVB, Region XIII	LFP	2018	2020	-	55,179,907.00	17,000,000.00	10,000,000.00	-	-	82,179,907.00

1689	UP-0022	Construction of New UP Administration Offices Building (UP DILIMAN)	CHED	UP	chapter 19	Since 1950, the administrative building of the University of the Philippines, more commonly known as Quezon Hall, has always been the home of several offices under the U.P. Diliman Administration and U.P. System such as OVCAA, OVCA, OVCRD, OVCSA, and OVCCA. These offices have been continuously growing and expanding for 66 years as they address the increasing needs of the University at the administrative level. As a result of this, the important files and documents that are not easily been archived digitally are currently taking up much office space than it should be. Instead of translating the available office spaces as a place for skilled professionals, these are just transformed as dust-inducing and fire-prone storage spaces. Besides the problem of storage space, the U.P. administration also needs more space to establish offices for projects that are primarily focusing on administrative-academic research, and generally for the advancement of the University as a national academic institution. The limited floor area of the present Quezon Hall is not enough to conduct such endeavors. Indeed, a need for a new building is an imperative.	Region-Specific	NCR	LFP	2018	2020	-	300,000,000.00	-	-	-	-	-	300,000,000.00

1731	PNU-0002	Construction of PNU Convention Center and Training Center as provided under RA 9647 (PNU Modernization Act)	CHED	PNU	chapter 19	<p>In 2009, Philippine Normal University was declared as the National Center for Teacher Education by virtue of RA 9647. It is mandated to champion Teacher Education in the country. This project is essential in capacitating PNU's infrastructure to complement the human resource capability building for the university to fulfill its mandate of producing not only teachers and education leaders but more importantly capacitating other teacher education institutions as well. This program will contribute to the K to 12 reform program, particularly in addressing the following:</p> <ol style="list-style-type: none"> 1. low Teacher quality; 2. low educational and academic performance of Filipino learners; and 3. low research output of the Philippines vis-a-vis ASEAN countries. <p>The performance of the education sector is captured by the national performance in the Licensure Examination for Teachers (LET) where the national passing rate is a measly 31.3% (elementary level) and 41.7% (secondary level). There are certain facts that make it imperative for PNU to be more proactive in championing teacher education. These are as follows:</p> <ol style="list-style-type: none"> 1. There are almost a million teachers (both public and private); 2. Teacher education institutions graduate approximately 63,000 pre-service teachers a year; 3. There are approximately over 1,000 teacher education institutions (both public and private); 4. Only 36% of faculty from TEIs have MA/MS and 10% have PhD/EdD. <p>The NCTE law provides for 750 million fund to build PNU's Convention and Training Center. Of this amount, PNU received 75M (2015) and 197.5M in 2016. The remaining amount is being requested because the architectural and engineering design is deemed completed in 2016. More than being a provision of the law, the PNU Convention Center and Training Center will be the country's hub to continuing teacher development. Teachers and education leaders from all over the country can be accommodated for their professional development needs. Not only that, faculty members from teacher education institutions can now be accommodated by PNU for capacity building.</p> <p>This infrastructure (hard ware) is complemented by the concomitant capability building for PNU's human resources, research, and academics programs (soft ware). When taken together, PNU can truly function as the country's National Center for Teacher Education.</p>	Region-Specific	NCR	LFP	2015	2020	-	275,143,629.53	106,397,300.00	341,093,500.00	-	-	722,634,429.53

1774	DOST-0061	Construction of Provincial S&T Center - Davao Oriental	DOST		chapter 19	The project Building Construction for PSTC-Davao Oriental will significantly contribute to DOST's objective and mandates thru the following ways: - Provision of a space where the value of S&T can be showcased. The building will not only provide appropriate space for office and administrative functions but will also provide an avenue for efficient and optimum S&T service delivery for MSMEs, people's organizations, agencies for trainings, techno-demo; consultancy services; fora; scholarships and even satellite laboratory services. - The building will afford a unique distinction for DOST- that will enable the agency to provide central direction, leadership and coordination of scientific and technological efforts and ensure that the results there from are geared and utilized in areas of maximum economic and social benefits for the people. The building will also model a quake-proof infrastructure in aid of the DOST call for disaster- readiness. - The building will enable the PSTC of Davao Oriental to secure DOST facilities especially for calibration, testing and analyses, weather and climate mitigation, ICT, packaging and labelling design, research and other functions. Nr	Project Code	Project Title	Implementing Agencies		PDP Chapter	Description	Spatial Coverage		Mode of Implementation	Implementation Period		Investment Targets (in PhP Exact Amount)						
			Mother Agency	Attached Agency			Main	Region		Start	End	2017	2018	2019	2020	2021	2022	Total (2017-2022)
1924	CLSU-0012	Construction of Teacher Education Hall (Phase 2) and Acquisition of Furniture and Equipment	CHED	CLSU	chapter 19	The Teacher Education Hall (TEdH) is a Three-storey building with a floor area of 2070 sq. m. which will serve as a convergence center for students, faculty, staff and College of Education project beneficiaries.	Region-Specific	Region III	LFP	2020	2020	-	-	-	60,000,000.00	-	-	60,000,000.00
1925	CLSU-0013	Construction of Teacher Education Hall (Phase I) and Acquisition of TEdH Furniture and Equipment	CHED	CLSU	chapter 19	The Teacher Education Hall (TEdH) is a Three-storey building with a floor area of 2070 sq. m. which will serve as a convergence center for students, faculty, staff and College of Education project beneficiaries. It aims to provide excellent learning and training environment via high-end infrastructure, quality students and faculty members; boost the capability and enhance the effectiveness of CLSU to become a proactive partner for progress through a more focused education program for sustainable development.	Region-Specific	Region III	LFP	2018	2018	-	20,000,000.00	-	-	-	-	20,000,000.00
1926	DOST-0060	Construction of Teaching Factory Building at Agusan del Sur State College of Agriculture and Technology (ASSCAT)	DOST		chapter 19	The Teaching Factory is a concept that facilitates effective learning in the implementation of a broad-based curriculum in the first two years and specialist studies in the final year. It adopts an application-oriented training approach that combines the learning and working environment from which realistic and relevant learning experiences arise. The construction of such a facility in Agusan del Sur State College of Agriculture and Technology will provide both students and faculty of this institution the opportunities for change in the field of higher education.	Region-Specific	Region XIII	LFP	2019	2019	-	-	4,000,000.00	-	-	-	4,000,000.00
1927	DOST-0064	Construction of Teaching Factory Building at Surigao State College of Technology (SSCT)	DOST		chapter 19	The construction of a Teaching Factory in Surigao State College of Technology will provide both students and faculty of this institution the opportunities for change in the field of higher education.	Region-Specific	Region XIII	LFP	2019	2019	-	-	4,000,000.00	-	-	-	4,000,000.00
1928	CSUCat-0016	Construction of Technology Building	CHED	CSUCat	chapter 19	The proposed building is to serve as laboratory building for the College of Industrial Technology. At present, laboratory activities in the college are handled by professors in rooms that is used for academic (lectures) and laboratory purposes. The construction of the technology building will address this deficiency towards excellence in the delivery of services by the Catanduanes State University	Region-Specific	Region V	LFP	2018	2018	-	10,000,000.00	-	-	-	-	10,000,000.00
1929	DOST-0071	Construction of Technology Center in Surigao del Sur	DOST		chapter 19	The Province of Surigao del Sur is widely spread geographically. This will require another technology center that can provide technology intervention to its constituents that have limited or no access to the capital of the province where the Provincial Science and Technology Center is located.	Region-Specific	Region XIII	LFP	2020	2021	-	-	-	-	4,000,000.00	-	4,000,000.00
1930	IFSU-0053	Construction of Technology Commercialization center-Aguinaldo Campus	CHED	IFSU	chapter 19	Construction of Technology Commercialization center.	Region-Specific	CAR	Others	2019	2019	-	-	6,000,000.00	-	-	-	6,000,000.00
1931	JHCSC-0028	Construction of Technology Training Center in CMSE Campus	CHED	JHCSC	chapter 19	For the construction of Technology Training Center in CMSE Campus	Region-Specific	Region IX	LFP	2019	2019	-	-	4,000,000.00	-	-	-	4,000,000.00
1932	TESDA-0019	Construction of TESDA Region XII Regional Office	DOLE	TESDA	chapter 19	TESDA - XII Regional Office and Provincial Office of South Cotabato construction	Region-Specific	Region XII	TBD	2018	2020	50,000,000.00	-	16,000,000.00	9,500,000.00	-	-	75,500,000.00

			Mother Agency	Attached Agency			Main	Region		Start	End	2017	2018	2019	2020	2021	2022	Total (2017-2022)
1933	PTRI-0012	Construction of Textile Product Development Building	DOST	PTRI	chapter 19	The PTRI Textile Product Development Center will help the Institute translate its developed technologies into products that will easily be relatable to the market. This center will become the platform for projects with direct positive impact to the stakeholders, provide tangible results that are functional and practical, and promote innovation in the local textile industry. The center will function as a product development "laboratory" where textile designers and artists, retailers, and manufacturers can evaluate the functionality and cost of their designs/products before offering it to the public. It will provide access to design development/testing, time-motion study and engineering of products at a reduced cost/testing fees for the local textile industry and researchers. It also aims to further validate the role of PTRI as the premier textile R&D arm of DOST in support to the textile and allied industries.	Region-Specific	NCR	LFP	2020	2021	-	-	-	10,000,000.00	5,000,000.00	-	15,000,000.00
1934	UP-0158	Construction of the Center for Continuing Education (UP MINDANAO)	CHED	UP	chapter 19	To be supplied by UP Mindanao	Region-Specific	Region XI	LFP	2018	2020	-	148,000,000.00	-	-	-	-	148,000,000.00
1935	CLSU-0014	Construction of the CLSU Broiler Project Climate Controlled System	CHED	CLSU	chapter 19	The CLSU Broiler Project using climate controlled system promotes the use of modern technology to improve broiler production. The project exposes students on the advances in agriculture and at the same time provides additional internal income which the university can use in its other programs.	Region-Specific	Region III	LFP	2018	2018	-	14,000,000.00	-	-	-	-	14,000,000.00
1936	CLSU-0015	Construction of the College of Fisheries Learning Square and Acquisition of Furniture and Audio Visual Equipment	CHED	CLSU	chapter 19	The project aims to upgrade the facilities and equipment of the College of Fisheries through the construction of the Learning Square and acquisition of audio visual equipment. The project likewise aims to prepare the college for internationalization and twinning with the University of Liverpool, Swansea and other universities.	Region-Specific	Region III	LFP	2018	2018	-	2,000,000.00	-	-	-	-	2,000,000.00
1937	PN-0003	Construction of the Command and Control, and Communications (C3) Truck Shed	DND	PN	chapter 19	"This project will entail the construction of shed for the Command and Control, and Communications (C3) Truck and Communications Van (Comms Van) of the Philippine Navy (PN) in order to prolong, protect and prevent untoward damage to the said vehicles especially the ICT mission-essential equipment on-board which is critical in providing fast, reliable and secure C3 Systems in support to the accomplishment of the PN mission. The above-mentioned vehicles are utilized in support to the PN, AFP and other agencies especially on the conduct of Humanitarian Assistance and Disaster Response (HADR) operations, hauling of firearms, ammunition and magazines and monitoring of different naval training exercises. This project will prevent the rapid deterioration of the C3 Truck and the mission-essential equipment on-board and will entail lower cost for maintenance and will not hamper the conduct of fleet-marine and HADR operations. At present, the ICT Center of the PN has an existing motor pool, however, it is not large enough to accommodate the above-mentioned vehicles, especially the C3 Truck. The proposed shed will serve as a housing and repair facility dedicated only for the said vehicles."	Region-Specific	Region IVA	TBD	2018	2018	-	3,554,896.00	-	-	-	-	3,554,896.00

1940	CSU-0017	Construction of the Knowledge Hub for CS	CHED	CSU	chapter 19	For students to have an easier access to e-learning and technology guided instruction. It will eventually be a nook for students' learning and convergence of institutional resources.	Region-Specific	Region II	LFP	2018	2018	-	2,500,000.00	-	-	-	-	-	2,500,000.00
1941	NEDARO11-0017	Construction of the NEDA-RDC XI Center Garage	NEDA	NEDARO11	chapter 19	Construction of the new NEDA-RDC XI Center Garage to replace the old garage which was converted into a service entrance for the new 3-100 KVA transformers and housing for the two generator sets.	Region-Specific	Region XI	LFP	2018	2018	-	2,000,000.00	-	-	-	-	-	2,000,000.00
1942	DOST-0093	Construction of the New DOST Regional Office/Provincial Science and Technology Office in Zamboanga del Sur	DOST		chapter 19	Permanent site of the DOST IX Regional Office and the Zamboanga del Sur Provincial Science and Technology Office. Site will be at the President Corazon C. Aquino Regional Government Center, Pagadian City.	Region-Specific	Region IX	LFP	2018	2018	-	25,000,000.00	-	-	-	-	-	25,000,000.00
1943	DOST-0085	Construction of the New Provincial Science and Technology Office - Oriental Mindoro	DOST		chapter 19	High agency spending on rental fees for office spaces.	Region-Specific	Region IVB	LFP	2018	2018	-	5,000,000.00	-	-	-	-	-	5,000,000.00
1944	PUP-0013	Construction of the PUP Graduate School and PUP Open University System Building at PUP Lepanto	CHED	PUP	chapter 19	The construction of the building for the graduate school is composed of 30 classrooms and office spaces that will provide a learning environment that will be more conducive and beneficial to professionals who would like to engage in advance higher education program as well as the Open University System.	Region-Specific	NCR	LFP	2019	2019	-	-	120,000,000.00	-	-	-	-	120,000,000.00
1945	SLSU-0024	Construction of the Technological Laboratory of the College of Business Administration (CBA) - Right Wing of the CBA Building	CHED	SLSU	chapter 19	The Technological Laboratory of the College of Business Administration (CBA) shall be constructed on the right wing of the newly constructed 5-Storey building of CBA. This is to provide better learning environments for the growing number of students in CBA and other programs in need of technological laboratories and classrooms. Construction of this structure on the right wing of the CBA building will likewise maximize utilization of the available resources within the University.	Region-Specific	Region IVA	LFP	2018	2018	-	60,000,000.00	-	-	-	-	-	60,000,000.00
1946	PSA-0001	Construction of the twenty-three (23) storey PSA Building	NEDA	PSA	chapter 19	The PSA Building will house the Central Offices of the four (4) agencies which were dissolved by virtue of RA 10625. These former agencies were the Bureau of Agricultural Statistics (BAS), National Statistical Coordination Board (NSCB), National Statistics Office (NSO), and Bureau of Labor and Employment Statistics (BLES). In order for the PSA to harmonize and coordinate all operations, it is necessary that its statistical and civil registration operations will be housed in a single physical building with its central support. The proposed building will accommodate all the statistical offices and central services from the merged agencies of the PSA. This will reinforce productivity of the PSA, as coordinating mechanisms among its delivery units will be well-established and work programs will be facilitated.	Nationwide		LFP	2016	2019	292,000,000.00	292,000,000.00	256,000,000.00	-	-	-	-	840,000,000.00

2036	DOLE-0003	Construction of Two-Storey Building for DOLE CAR	DOLE		chapter 19	The proposal aims to store various records and equipment for easy retrieval and for protection of government properties	Region-Specific	CAR	LFP	2018	2018	-	4,000,000.00	-	-	-	-	4,000,000.00
2037	BASC-0006	CONSTRUCTION OF TWO-STOREY AGRIBUSINESS MANAGEMENT BUILDING	CHED	BASC	chapter 19	The building is intended for agribusiness management students that comprise almost 10% of the total student population. The College currently needs a total of 110 classrooms in order to meet the ideal 1:35 classroom-student population ratio. However, there are only 65 classrooms available for use for FY 2016. Per data, BASC would still operate on a 1:59 classroom-student population ratio by AY 2016-2017. To address this, it sometimes becomes an option to utilize available laboratory facilities as classrooms which slightly addresses the problem which is not wise as it defeats the purpose of said structures. To fully address the current deficiency in classrooms, additional of 36 rooms will suffice the needs.	Region-Specific	Region III	LFP	2018	2018	-	20,000,000.00	-	-	-	-	20,000,000.00
2038	BASC-0007	CONSTRUCTION OF TWO-STOREY ANIMAL SCIENCE BUILDING	CHED	BASC	chapter 19	The building is intended for animal science students that comprise 21% of the total population at present. The College currently needs a total of 110 classrooms in order to meet the ideal 1:35 classroom-student population ratio. However, there are only 65 classrooms available for use for FY 2016. Per data, BASC would still operate on a 1:59 classroom-student population ratio by AY 2016-2017. To address this, it sometimes becomes an option to utilize available laboratory facilities as classrooms which slightly addresses the problem which is not wise as it defeats the purpose of said structures. 2040	BU-0026	Construction of Two-storey Dormitory	CHED	BU	chapter 19	The proposed Dormitory is an On-Campus Housing and recreational area for regular students' accommodation. An Architectural Design concept that focuses on energy efficiency shall be adopted. The main campus is a unique site, being host to a very significant natural feature, the Sagumayon River.	Region-Specific	Region V	LFP	2016	2018	20,000,000.00	10,000,000.00	-	-	-	-	30,000,000.00
2041	CLSU-0016	Construction of Two-storey Dormitory Building and Acquisition of Furnitures and Fixtures	CHED	CLSU	chapter 19	The main client of CLSU being a higher education institution are students which mostly come from disadvantaged families. As such, the university is mandated to provide housing/lodging services to its students and this project will cater to the growing number of students. The two-storey dormitory building will have eight (8) rooms (4 rooms each floor). Each room will have an actual capacity of 14 students with individual locker and bed. Each floor also has a common bathroom/comfort room. Dining room, storage room and an office will be found at the ground floor. This project also includes a parking space and a green area that are common to other existing dormitories.	Region-Specific	Region III	LFP	2019	2019	-	-	12,000,000.00	-	-	-	12,000,000.00

Nr	Project Code	Project Title	Implementing Agencies		PDP Chapter	Description	Spatial Coverage		Mode of Implementation	Implementation Period		Investment Targets (in PhP Exact Amount)							
			Mother Agency	Attached Agency			Main	Region		Start	End	2017	2018	2019	2020	2021	2022	Total (2017-2022)	
2042	NTC-0012	Construction of two-storey Field Office at Pagadian City, Zamboanga del Sur	DICT	NTC	chapter 19	The Pagadian Field Office under the NTC-IX Regional Office has been existing for more than two decades now, serving the people, clients and other stakeholders in relation to telecommunications rules and regulations for the entire province of Zamboanga del Sur. The present building that the field office occupies is owned by the LGU of Pagadian City constructed with wooden and other light materials. The LGU Pagadian converted the lower portion of the office, as their storage of their used ORs and documents. Thus, subjecting the current office as hazardous as it may catch fire any moment, adding to the fact that the wooden materials are very old and already shows a stage of rotting. Per ocular inspection conducted by the administrative officer and members of the Commission on Audit as to the structure of the current field office recommends that for the safety of the personnel and property thereat, the regional office shall locate a lot and build a new field office considering that the market value thereat are much lower as of this time.	Region-Specific	Region IX	LFP	2018	2018	-	24,500,000.00	-	-	-	-	-	24,500,000.00
2043	BASC-0009	CONSTRUCTION OF TWO-STOREY INFORMATION TECHNOLOGY BUILDING	CHED	BASC	chapter 19	The building is intended for IT and non-IT students. The College currently needs a total of 110 classrooms in order to meet the ideal 1:35 classroom-student population ratio. However, there are only 65 classrooms available for use for FY 2016. Per data, BASC would still operate on a 1:59 classroom-student population ratio by AY 2016-2017. To address this, it sometimes becomes an option to utilize available laboratory facilities as classrooms which slightly addresses the problem which is not wise as it defeats the purpose of said structures. To fully address the current deficiency in classrooms, additional of 36 rooms will suffice the needs	Region-Specific	Region III	LFP	2019	2019	-	-	20,000,000.00	-	-	-	-	20,000,000.00
2044	DOST-0088	Construction of Two-Storey Regional Standards and Testing Laboratory (RSTL) Building	DOST		chapter 19	To house/and to have enough space for the three (3) laboratories such as Chemical, Microbiology, Metrology and their corresponding equipment.	Region-Specific	Region III	LFP	2018	2018	-	10,000,000.00	-	-	-	-	-	10,000,000.00
2045	BASC-0010	CONSTRUCTION OF TWO-STOREY STUDENT CENTER	CHED	BASC	chapter 19	The increase of 15% on student population for the last two years has significantly required a bigger and better space for the provision of student services. At present, the Office of Student Affairs has a limited space which could merely accommodate a very small number of students inquiring on student services. With its small reception area, students with concerns on services and/or visiting the office are sometimes being met outside the building. Likewise, offices for student organizations like Supreme Student Council and student publication are housed in a very old or dilapidated structure. Therefore, it is proposed that a Student Center may be constructed in order to provide better facilities for student affairs, organization, publication and other student services.	Region-Specific	Region III	LFP	2018	2018	-	10,000,000.00	-	-	-	-	-	10,000,000.00
2046	PVAO-0032	Construction of two-story multi-purpose building	DND	PVAO	chapter 19	Construction of a two-story multi-purpose building with a floor area of 1,200 sqm. This will house the PVAO Canteen, training hall and other PVAO offices such as the gender and development, employees association, provident fund, etc. Aside from more than 200 employees at the Central Office, PVAO has an average of 300 visitors daily. The absence of a canteen within the PVAO premises has been a source of inconvenience to our clients.	Region-Specific	NCR	LFP	2020	2020	-	-	-	42,000,000.00	-	-	-	42,000,000.00
2047	UEP-0003	Construction of University Academic Building - Phase III	CHED	UEP	chapter 19	To address the increasing number of enrollment of students in the University.	Region-Specific	Region VIII	TBD	2018	2018	-	50,000,000.00	-	-	-	-	-	50,000,000.00

2050	PARSU-0002	Construction of University Dormitory Phase 3 - Goa	CHED	PARSU	chapter 19	The construction is intended for students (foreign and domestic), faculty, staff, and guests. Thus the building is designed to cater to the needs of individuals with different background and orientation. Safety, private spaces, accessibility features and comfort are among the primary considerations. This is aligned with the university's plan to host foreign students and Visiting Professors. Likewise, this proposed infrastructure will add up to the income-generating investment project to support university programs and projects. Construction of the second and third floor of the three-storey U-shaped housing facility with a total building area of 2,980 sq.m. , 58 bedrooms that can accommodate 172 students, personnel and transients of PSU with 4 common toilet and bath for the regular students and individual toilet and bath for foreign and personnel occupants.	Region-Specific	Region V	LFP	2018	2019	-	30,100,000.00	-	-	-	-	30,100,000.00

2052	UP-0024	Construction of University Plaza (UP BAGUIO)	CHED	UP	chapter 19	A campus plaza is designed to celebrate and express the University's stature, essential to demonstrating physically the institution's ideals and values . It anchors all the buildings around it and defines the University's identity. By redesigning the existing parking space into the University Plaza, the campus is provided with an open space to the scale of pedestrians, landscaped to integrate itself to the Administration Building becoming an enduring setting for University life. The redesign will also include adjacent landscaped areas and an outdoor ball court to increase the flexibility of uses of the spaces.	Region-Specific	CAR	LFP	2020	2020	-	-	-	46,400,000.00	-	-	46,400,000.00
2053	DHVTSU-0005	Construction of University Wellness Center with Site Development at Extension Lot of Main Campus, DHVTSU, Bacolor, Pampanga	CHED	DHVTSU	chapter 19	Section 34 of CHED Memorandum Order No.9, Series of 2013 requires HEIs to provide opportunities for the physical fitness and well-being of students. This project supports the administration's goal of creating an active university environment since studies have established that there is a significant correlation between physical health and the well-being of individuals. The advantages of physical activity have been shown across lifespans, among young and old alike. Physical activity has been revealed to improve educational attainment in teens. Among older adults, engagement in routine exercise on a regular basis leads to improved functional abilities such as mobility, and is related to increased longevity. In addition to the benefits of physical activity on improving health and reducing risk factors for chronic disease, it has been described to be effective in improving mental health, which is also a major cause of disability worldwide. There is evidence that among adolescents, increased leisure-time physical activity is associated with fewer depressive symptoms while some studies also show that physical activity accelerates learning by increasing cognitive processes. 2149	DPWH-0278	Davao City By-Pass Road Phase II	DPWH		chapter 19	The proposed Davao City Bypass Project is located in the City Panabo in Davao del Norte. Objective of the project is to improve the transport logistics and mitigate congestion, thereby contributing to economized social development in Mindanao (North Section).	Region-Specific	Region XI	LFP	2016	2020	1,350,000.00	235,779,000.00	1,227,626,000.00	1,864,120,000.00	409,679,000.00	655,879,000.00	4,394,433,000.00
2150	DPWH-0288	Davao City Coastal Bypass Road at Jct. Davao-Cotabato Road-Bago Aplaya-Talomo-Matina Aplaya-Roxas Avenue (Bago Aplaya-Times Beach Section)	DPWH		chapter 19	The bypass road starts at Jct Davao-Cotabato Road (N1) passing thru the coastal lines of Jct. Bago, Jct. Talomo, Matina Aplaya (Times Beach), Roxas Avenue Section to Sta. Ana Wharf and then R. Castillo. The Road which has a flat terrain has an estimated total length of 18.206km. This has four segments: Segment A: Bago Aplaya-Times Beach Segment B: Times Beach-Roxas Avenue Segment C: Roxas Avenue-Sta. Ana Wharf Segment D: Sta. Ana Wharf-R. Castillo The scope of work includes Const./Opening/Impvt./Concreting (into 4 lanes) with slope protection (seawall), construction of six (6) bridges with a total length of 1,214 lm and approaches, construction of box culvert and drainage structures, provision of access roads, traffic lights, street lights, site development, structure landscaping including ROW. This shall serve as a bypass road/alternative route to the Davao-Cotabato Road and ABS-CBN Diversion Road to ease traffic congestion along busy intersections such as Matina Jct., Bangkal Jct., and Ulas Jct and Central Business Districts in the area and to disperse urbanization outside Davao City Urban Center which is already over-saturated because large scale shopping malls are concentrated and international port/airport and bus terminals are located within the urban center. This bypass road shall also complement the proposed Mega Harbor Project of Davao City which is composed of 4 islands for government, residential and business establishments including port. 2161	MIRDC-0015	Design and Development of an Inter-Island Marine Vessel	DOST	MIRDC	chapter 19	The Philippines consists of about 7,641 islands that are categorized broadly under three main geographical divisions from north to south: Luzon, Visayas, and Mindanao. The Philippines is surrounded by bodies of water, the only means for sea transport from island to island is through ferry boat and outrigger boat. Majority of the small scale transportation going travelling from island to island is by means of outrigger boats or sometimes known as the motorized banca boats. The banca boat is made of wooden hull body with bamboo outriggers. Data analyses of maritime incident reports show a high percentage of capsizing by these motorized banca boats, highlighting the need for some regulation of their design and construction. According to the Science for Change Program bill, there is a need to develop efficient and safe small inter-island vessel to address pressing problems in transport and mobility of people and goods. The project aims to localize the a 30 passenger inter-island boat to reduced the cost of importation and maritime sea accident. The project can be used by maritime industry for public sea transport. 2162	DOE-0008	Detailed Wind Resource Assessment Project	DOE		chapter 19	<p>The Republic Act No. 9513 otherwise known as the Renewable Energy Act of 2008⁸ was enacted to accelerate the exploration and development of RE resources to achieve energy self-reliance, through the adoption of sustainable energy development strategies to reduce the country's dependence on fossil fuels, thereby balance the goals of economic growth and development with the protection of health and environment.</p> <p>As the lead agency in the implementation of the Act, the DOE is tasked, among others, to develop and maintain a centralized, comprehensive and unified data and information base on RE resources to ensure the efficient evaluation and analysis and dissemination of data and information on RE resources, development, utilization, demand and application.</p> <p>In pursuance of this tasked, the DOE is conducting a detailed wind resource assessment activity in selected areas with potential resources and no existing wind development initiatives. The activity aims to address the gaps of the country's wind database which would be utilized by project developers/investors in conceptualizing, designing and evaluating wind energy projects.</p> <p>The project jumpstarted under the Capacity Building to remove Barriers to Renewable Energy Development in the Philippines⁹ (CBRED) Project of the DOE, which procured five (5) units of meteorological mast (met mast) and other auxiliary equipment needed for the start of a detailed wind data gathering. Four (4) of these met masts were installed in the Municipality of Lubang, Occidental Mindoro; in City of San Jose City and Municipality of Pantabangan, both in the Province of Nueva Ecija by the Solar and Wind Energy Management Division (SWEMD) Technical Team. However, the met-mast installed in Lubang, Occidental Mindoro was decommissioned due to devastation of Super Typhoon Yolanda in 2013. Moreover, met-mast installed in the Municipality of Pantabangan, Nueva Ecija was transferred to the Municipality of Dasol, Pangasinan and the remaining unit was installed in the Municipality of Bagac, Bataan in 2015.</p> <p>Upon the conclusion of the CBRED Project in 2011, DOE assumed the sustenance of the wind resource assessment activity through the WRAP Project which was approved for implementation in 2012.</p> <p>Main Objective: To identify viable sites for wind power development in the country.</p> <p>Specific Objectives: (1)Undertake and sustain the conduct of detailed wind resource assessment in potential sites of the country; (2)Update the national wind database containing resource data that are necessary in planning, design and implementation of wind energy projects; (3)Build local capability/expertise on various activities of wind resource assessment as well as in the development of wind power projects; and (4)Offer to prospective Wind Developers the identified viable wind areas for commercial development and implementation pursuant to RA 9513.</p>	Nationwide		LFP	2013	2020	15,000,000.00	16,500,000.00	18,150,000.00	18,150,000.00	-	-	67,800,000.00
2163	MIRDC-0003	Development of Pilot Commercial Model Train Set	DOST	MIRDC	chapter 19	<p>Development of Pilot Commercial Model Trainset can augment the existing number of trainsets presently in service in the country. This will cover establishing design and material selection as well as fabrication and manufacturing of every part making up the whole trainset. Its effects could open opportunities of local manufacturing of some spare parts which can be used for the current units.</p> <p>The Pilot Commercial Model Trainset can also serve as a solution for the government's long term program of decreasing traffic congestion caused by various modes of transportation currently being utilized. Furthermore, the existence of local manufacturers of train components would result to the growth of facilities and subsidiary industries that supply machines, tools and service providers that is linked with the railway industry. And if the Philippines would like to stay competitive in the Asian and global markets, it should establish its capability to develop its own railway system that is locally manufactured and maintained to increase efficiency and usability of our current rail transport systems and realize the economic benefits on having such rail systems.</p>	Region-Specific	NCR	LFP	2018	2020	-	170,000,000.00	50,000,000.00	30,000,000.00	-	-	250,000,000.00

2164	MIRDC-0004	Development of a Commercial Prototype Automated Guide-way Transit System in UP Diliman	DOST	MIRDC	chapter 19	This project aims to improve safety and convenience and functionality of existing AGT system and to design and develop a commercial prototype AGT system.	Region-Specific	NCR	LFP	2017	2017	14,920,000.00	-	-	-	-	-	14,920,000.00	
2165	MMDA-0006	Development of a New MMDA Disposal Facility South of Metro Manila	MMDA		chapter 19	<p>MMDA has no disposal facility of its own. The facilities being utilized by the LGUs of Metro Manila are privately owned and operated namely: Rizal Provincial Sanitary Landfill (RPSTLF), Quezon City Sanitary Landfill (QCSTLF), and Navotas Sanitary Landfill (NSTLF).</p> <p>MMDA is mandated under RA 7924 and the Supreme Court continuing mandamus to establish, operate, and maintain its own sanitary landfill facility (SLF) for Metro Manila in order to clean, rehabilitate and protect Manila Bay.</p> <p>For 2017, the South Sector makes approximately a total of 244 collection truck trips/day with an average volume of 4,529 m³/day or 15.13%. This number of truck trips ply EDSA to go to their designated disposal facility at RPSTLF, North East outside Metro Manila.</p> <p>Providing a disposal facility for five (5) cities in the South of Metro Manila will reduce traffic along the major thoroughfare of Metro Manila (EDSA); reduce queuing in the disposal facility from 618 truck trips to 374 truck trips per day; reduce volume load by 31% - from 14,462.62 m³/day to 9,933.62 m³/day thereby prolonging the life span of RPSTLF, and reduce disposed volume share of RPSTLF from 49% to 33.19%.</p> <p>1.The proposed property is 322 hectares located in the neighbouring towns of Bay and Calauan province of Laguna situated beside an existing disposal facility. The initial area to be acquired for development into a SLF is 50 hectares of which approximately 32 hectares will be developed as the fill area. This will initially serve the cities of Makati, Pasay, Paranaque, Las Pinas, and Muntinlupa.</p> <p>2.The distance of the site from the area of collection (approx. 70 kms from Makati City via SLEX) has breached the distance for direct hauling. Thus, the need to establish a transfer station. The transfer station may also be operated as a Materials Recovery Facility (MRF) to recover more recyclable materials which will consequently reduce waste to be hauled and landfilled.</p> <p>3.Conduct of Feasibility Study will be undertaken after acquisition of the proposed property.</p> <p>4.Actual start of operation in 2019. (Portion of the initial 50 has.)</p> <p>5.The project is aimed to provide assurance of a disposal space for the 55% or 5,725.46 cu.m./day of estimated waste generation (EWG) of LGUs south of Metro Manila for the next 6 years and beyond. This is also in compliance with RA 7924 and the Supreme Court continuing mandamus to establish, operate, and maintain its own sanitary landfill.</p> <p>6.Social benefit comes in the form of livelihood to residents of the host LGUs.</p> <p>7.Nearby LGUs of Calauan may avail of the facility at a tipping fee of Php 171.42/cu.m. or Php 600.00/ton.</p>	Region-Specific	NCR	LFP	2018	2023	-	160,422,000.00	500,000,000.00	500,000,000.00	500,000,000.00	500,000,000.00	500,000,000.00	2,160,422,000.00

This program will focus on the developing safety features and mechanism to address safety concerns of the existing AGT prototype in UP Diliman and Bicutan	Region-Specific	NCR	LFP	2017	2018	78,643,000.00	13,120,000.00	-	-	-	-	91,763,000.00
2167	TAU-0017	Development of Agritourism Sites	CHED	TAU	chapter 19	The project is composed of the following: -expansion of the areas in the University Nursery; -improvement/renovation of barn/housing for goat and cattle project; -expansion of piggery houses; -expansion of housing and accessories for duck production areas; -development of Botanical Garden and Picnic Grove; -additional 10 cu.m. Biogas; -construction of Rice Mill; -improvement of pig and native chicken rearing house; -rehabilitation of 10m x 25m poultry house; -construction/installation of black net frame; -replacement of defective and corroded pipelines and fixtures-rice production; -expansion and improvements of fish ponds for fish production; -expansion and improvement of organic and vermicompost production area; -expansion of production houses for free range chicken; -repair of net houses with concrete plots for organic vegetable production and overhead irrigation -construction of solar water pumps; -repair and rehabilitation of farm shops; and -improvements of water system for high value commercial crops	Region-Specific	Region III	TBD	2019	2019	-	-	20,000,000.00	-	-	-	20,000,000.00
2168	DICT-0023	Development of Enterprise Geographic Information System (EnGIS)	DICT		chapter 19	The project is an initiative to start institutionalizing the effort on the development of GIS to facilitate mapping of significant and related data that will support the nationwide internet connectivity effort of the DICT called the National Broadband Plan (NBP)	Nationwide		LFP	2018	2018	-	10,074,668.00	-	-	-	-	10,074,668.00
2169	MIRDC-0010	Development of Pilot Commercial AGT System	DOST	MIRDC	chapter 19	The Philippines is losing Php 2.4 billion pesos a day due to traffic congestion. This is according to a study made by the Japan International Cooperation Agency (JICA). To address this national pressing problem, the Department of Science and Technology (DOST) embarked on developing locally an alternative mass transportation technology solution. At present, two prototypes have been developed, the smaller AGT in UP Diliman which is envisioned to be adopted on narrow streets and secondary roads. The bigger AGT in Bicutan is envisioned to act as primary mass transport system comparable to the existing rail systems such as MRT and LRT. While continuing the development and completing the sub-systems of AGT, these two sites serve as platform for technology demonstration and promotion, bringing awareness to the riding public and proof of concept to would be adopter and investors. However, the limited length of track of both prototypes proves to be the obstacle in the testing of full capability of the AGT. This proposal aims to develop a Pilot Commercial AGT system in Subic Bay Metropolitan Authority (SBMA) in Zambales to test the full capability and eventual technology certification. The Pilot Commercial AGT is comprised of developing an	Region-Specific	Region III	LFP	2018	2019	-	613,920,000.00	80,740,000.00	-	-	-	694,660,000.00

2209	PTRI-0005	Enhancement of Textile Dyeing and Finishing Facilities	DOST	PTRI	chapter 19	Phase I was conducted in 2015 charged to the DOST-GIA funded project entitled "Establishment of the PTRI Innovation Center for Yarns and Textiles". However, due to limited funds, scope of works was limited to repainting of exterior walls, replacement of broken window glass and application of sealants on windows and roofs, and provision of building and laboratories' signages. The PTRI Pilot Plant houses the only available textile production facilities in the country that can cater to small scale production of pure cotton and blended indigenous fiber yarn and fabric requirements of MSMEs for local and international markets. Phase II of the project will improve the working environment which in turn will help boost productivity and employees welfare given that the conditions in the area is not conducive and affect the well-being of the workers. The increased production activities will render all machines to be fully operational, and the installation of ceiling and insulation will lessen heat conductivity especially during the warmer months. Improving the state of the facility will enforce the position of the PTRI as a strong support to the industry while providing due consideration to the working environment of its workforce. While compliance with the government policy on waste water treatment is a primary	Inter-regional	NCR, CAR, Region I, Region II, Region III, Region IV, Region IVB, Region V, Region VI, Region VII, Region VIII, Region X, Region XI, Region XII	LFP	2018	2019	-	5,000,000.00	2,000,000.00	-	-	-	-	7,000,000.00

						consideration, the Institute adheres to principles of Green Manufacturing. We anticipate increased prominence of Dye and Finishing Technology R&D, hence there is a need to expand the work areas to accommodate new equipment and setup of a suitable dye and textile processing effluents treatment facility within the PTRI. The scope of works to be done: - replacement of dilapidated gutters with provision for water proofing - installation of ceilings and insulation (1,200 sqm) - installation of waste water treatment facility for dye effluents - rehabilitation of electrical system - provision for mezzanine area for fiber and supplies storage (vertical expansion) - expansion of the dyeing and finishing areas													
2210	ITDI-0001	Enhancement of the Competence and Capabilities of the National Metrology Laboratory of the Philippines (formerly 'A Program to Enhance the Competence and Capabilities of the National Metrology Laboratory of the Philippines')	DOST	ITDI	chapter 19	This comprehensive program generally aims to enhance the competence and capabilities of the National Metrology Laboratory (NML) to cover all relevant measurement fields needed by the country to the level of a competent National Metrology Institute (NMI). Four (4) major projects will be carried out over a five-year period. One will involve the strengthening of the physical metrology capabilities of the NML while the other will focus on the enhancement of traceability for metrology in Chemistry and Biology.	Region-Specific	NCR	LFP	2017	2021	395,361,512.00	213,231,220.80	194,295,796.00	138,893,028.00	49,349,504.80	-	991,131,061.60	
2211	PTRI-0007	Enhancement of the Natural Fiber Pilot Plant Extension Building	DOST	PTRI	chapter 19	From the recently presented S and T Roadmap in Textiles and Garments (August 2016), two(2) regenerated cellulose materials produced from different plant sources are targeted in 2018. The material is set to supply the demand from the industry both commercial and SMSE's, of a Philippine produced yarns that has similar properties to that of cotton and silk. This can be achieved by establishing an existing cellulose regeneration technology (preferably the closed loop NMMO process) and involves installation of a pilot scale dissolving pulp and wet spinning facilities. The infrastructure to house these facilities needs to be adequate in terms of space (area) and ceiling height (about 2 floors high) to accommodate fixtures and attachments and to ensure fluid work flow of material and workforce movement. The building is also proposed to house a counterpart melt spinning extrusion facility to the production of synthetic polymer-based yarns. The possibilities for fiber engineering using this particular equipment is endless as it is the process in producing the conventional polyester staple fibers to the most sophisticated ones used in bullet proof vest and textile medical devices. Research towards this direction is inevitable and thus needs to be properly planned as it requires space in terms of infrastructure and capital in terms of financial investment. 2212	MIRDC-0013	Enhancing Metallurgical and Mechanical Properties of Automotive, Aerospace, and Industrial Machinery Parts and Components Through Different Heat Treatment Processes	DOST	MIRDC	chapter 19	<p>Innovations on various heat treatment cycles and processes are being studied due to the increasing demand on products and quality requirements, optimum cost process, and the trend towards environment friendly and energy efficient furnaces and processes.</p> <p>The Metals Industry Research and Development Center (MIRDC) through the Materials and Process Research Division offers heat treatment services and research and development. Conventional furnaces, though still the more popular and cheaper means of heat treatment, is slowly being overtaken by the cleaner and more advanced equipment such as vacuum furnaces. Intricate shapes of product and stringent quality and environmental requirement among others are reasons for the deviation to these newer technologies. One example is the cyanide salt bath process. MIRDC stopped this due to the harm it brings especially to the health of the operators since they are the ones exposed.</p> <p>In recent years, MIRDC upgraded its heat treatment capability by acquiring Vacuum Gas Quench and Vacuum Carburizing. The former generally caters tool and die parts, high alloy steels, and stainless steels, while the latter is generally for low carbon steels. Most local companies source this type of services from abroad. This translates to additional production cost and delays in delivery. This also limits local companies from experimenting cost effective but at the same time compliant to customer's requirement in terms of quality. This proposal aims to conduct comprehensive researches for Automotive, Aerospace and Industrial Machinery by establishing additional equipment and processes, namely: I. Cryogenic Heat Treatment II. Induction Heat Treatment facility, and III. Aluminum Heat Treatment facility.</p> <p>The project aims to enhance metallurgical and mechanical properties of Automotive, Aerospace and Industrial Machinery parts and components by applying different heat treatment processes.</p>	Region-Specific	NCR	TBD	2018	2020	-	64,799,200.00	39,689,000.00	34,730,400.00	-	-	139,218,600.00

Bio-Tech Laboratory for an improved research output equipped with high-end apparatuses and equipment for Agricultural Development. The Building is composed of 6 various laboratories, storage rooms, supply rooms, pest and plant clinics, toilets, lobby, offices and holding room. Various laboratory equipment and apparatuses, reagents, computer-based softwares shall be procured as part of the project component	Region-Specific	Region II	LFP	2018	2020	-	12,000,000.00	12,000,000.00	12,000,000.00	-	-	36,000,000.00
2220	MIRDC-0012	Establishment of a Foundry Institute in MIRDC	DOST	MIRDC	chapter 19	The project entails establishing a Foundry Institute in MIRDC dedicated to the development and competitiveness of the Philippine metalcasting industry. The establishment of the Foundry Institute is identified in the Philippine Metalcasting Industry Roadmap as one of the critical requirement for the development and competitiveness of the metalcasting sector. The metalcasting industry produce metal parts and components used in the manufacture of durable goods and manufacturing machinery - at the lowest cost and fastest rate. In fact, 90% of all durable goods contain castings and 100% of all manufacturing machinery contain castings. This is addition to the major industries such as energy, manufacturing, mining, cement, and transport that needs replacement castings. Hence, this industry is vital to the development and competitiveness of the general metals and engineering industry of the Philippines. At the present, the country's demand for these castings are mostly imported as the local foundries cannot effectively compete on cost, quality and capacity. In fact, many foundries have stopped operation and became importers themselves. The foundries, being SMEs, are not in the position to conduct the innovation needed to be competitive. They simply lack the resources and access to technology to conduct these innovation activities. In all other industrialized countries, the metalcasting industry is supported by foundry institutes. These institutes work in close collaboration with the industry and academe. At the present, there is no such collaboration between these three sectors in the Philippines - there is no foundry institute, foundry education is weak and the metalcasters are left on their own. The Foundry Institute will serve as a business development services (BDS) provider for the metalcasting industry by providing the following services: training, consultancy and advisory services, marketing assistance, information dissemination, technology development and transfer, technology business incubation and business linkage promotion services. The proposed Foundry Institute, as the general practice in all industrialized countries around the world, will spearhead the development and competitiveness of the metalcasting industry in the Philippines. The effectiveness of the Foundry Institute depends primarily on the capabilities of its people enabled by the latest tools and technology. To achieve the target functions at world-class competitive levels of performance, the project will develop the capability of the Foundry Institute thru	Region-Specific	NCR	TBD	2018	2022	-	92,621,200.00	18,091,200.00	24,091,200.00	24,091,200.00	24,091,200.00	182,986,000.00

2255	FPRDI-0004	Establishment of Packaging Testing Laboratory	DOST	FPRDI	chapter 19	A new structure is needed to house testing equipment.	Region-Specific	Region IVA	LFP	2020	2020	-	-	-	2,000,000.00	-	-	2,000,000.00
2256	PalSU-0018	Establishment of Palawan State University Institutional Food Laboratory - Priority 29	CHED	PalSU	chapter 19	<p>The proposed Palawan State University Institutional Food Laboratory is a conceived to address the concern of the faculty and students in the College of Hospitality Management and Tourism to travel to and from the existing university food laboratory. At present the college utilizes the rehabilitated/renovated marine laboratory as the university food laboratory which is not fully established to address the need of a basic food laboratory. Further, the said laboratory's proximity is not conducive to the location of the college; hence schedules of the students and faculty suffers.</p> <p>This project proposes that a new and fully equipped food laboratory be constructed within the college premise. This Institutional Food Laboratory will also include areas for hot kitchen, cold kitchen, service and dining area. Furthermore this is also proposed to be an alternative dining outlet in the university ergo it could also be an income generating project for the college and the university.</p>	Region-Specific	Region IVB	LFP	2018	2022	-	5,000,000.00	1,000,000.00	1,000,000.00	5,000,000.00	5,000,000.00	17,000,000.00
2257	MIRDC-0009	Establishment of Philippine Motor Vehicle Research And Testing Facility (MoVeRTeST) For Motor Vehicle Type-Approval Scheme (MVTAS) of the Philippines	DOST	MIRDC	chapter 19	<p>This project aims to establish a type-approval testing facility capable to determine compliance of new car model's compliant to Euro IV emission standard. At present, the country do not have this facility which makes us unable to validate new car models compliance to Euro IV emission standard. To establish such facility, below are the Objectives of the project:</p> <p>General : To develop and establish emission testing facilities for motor vehicle type approval and conformity of production for vehicle categories M, Category N and Category L that are consistent with national regulations as well as regional and international agreements related to the automotive sector.</p> <p>The specific objectives are identified according to the phases of the project as follow:</p> <p>Phase 1 Specific Objectives for establishment of facilities:</p> <ol style="list-style-type: none"> 1. To establish a motor vehicle emission testing facility following the requirements of the regulation of UNECE R-40, R-49 and R-83, 2. To establish a testing facility for tyres dynamic growth following the requirements of UNECE R-75. <p>Phase 2 Specific Objectives for operation and accreditation:</p> <ol style="list-style-type: none"> 1. To obtain laboratory accreditation of the established facilities to ISO/IEC 17025 or other accepted laboratory practices in emission testing, and 2. To conduct type approval and conformity of production tests covering UNECE R-40, R-49, R-83, R-30, R-54 and R-75 <p>Phase 3 Specific Objectives for operational sustainability:</p> <ol style="list-style-type: none"> 1. To maintain the laboratory accreditation to internationally accepted standards, 2. To implement equipment maintenance and calibration program 3. To institutionalize the MoVeRTeST Organizational Structure to MIRDC 	Region-Specific	NCR	LFP	2018	2027	-	242,905,465.50	249,342,278.00	125,373,565.80	162,535,690.80	15,415,478.60	795,572,478.70

2277	ZCSEZA-0002	Establishment of the La Paz Biotech Farms in the Zamboanga City Special Economic Zone Authority Highlands	ZCSEZA		chapter 19	<p>The project principally seeks to make a portion of the ZAMBOECOZONE Highlands in La Paz a profitable area for the development of a biotechnology farm community with farm facilities for research and development in the community to ensure food security for Zamboanga City and the Zamboanga Peninsula region. Lots in the ZAMBOECOZONE Highlands shall be apportioned for lease to interested business investors for the growing and processing of various farm products, poultry raising and livestock, and as a component of the farm, the integration of the cutflower industry.</p> <p>The project envisions an integrated development initiative with particular focus on generating employment for the barangay residents in La Paz, research and development, ecology and sustainability.</p> <p>The goal of the Biotech Farm in the ZAMBOECOZONE Highlands is to utilize world class farming technology to pursue effective husbandry management and skills.</p> <p>The Biotech Farm project is a means to protect the environment through better farm management and to safeguard animal health by providing high quality and safe food products available to consumers.</p> <p>The Biotech Farm shall introduce alternative livelihood means for the settlers in the Highlands by preventing kaingin practice and to make valuable contributions to the lives of farmers by introducing sound and farming practices.</p> <p>In the long-term, ZAMBOECOZONE can also enjoy consistent revenue growth, at the same time establishing Zamboanga City as a center for excellence in farming and development practices for agriculture.</p>	Region-Specific	Region IX	LFP	2015	2020	50,000,000.00	100,000,000.00	100,000,000.00	97,600,000.00	-	-	347,600,000.00
2278	ZCSEZA-0003	Establishment of the San Ramon Newport in the Zamboanga City Special Economic Zone Authority	ZCSEZA		chapter 19	<p>The San Ramon Newport shall fulfill the vision of the ZAMBOECOZONE in becoming a world-class economic zone that will link resources, markets and other logistical activities that can contribute to the economic development of Zamboanga City. In its desire to become a seaport-driven city, Zamboanga can boost employment, business and industries. The results to be achieved are accessibility of goods, continuous inflow of passenger-tourists and the enhancement of facilities and overall development of Zamboanga City and the Zamboanga Peninsula.</p> <p>Once established, the port facility, in effect, can help stimulate the opening of markets for agricultural activities, movement of goods, and other related activities such as education, trade, tourism and construction (bringing in of materials and equipment).</p> <p>It is also important to note that the San Ramon Newport will complement the Bypass Road Project that will link the East and West Coasts of Zamboanga City. The San Ramon Newport shall be situated in Sitio San Ramon, Barangay Talisayan which is 20-kilometer radius from the city proper and is strategically located for the conduct of port operations as it is complemented by the presence of canning factories and the ship-building and repair industry in its vicinity.</p> <p>With the effectivity of the ASEAN Economic Integration, the San Ramon Newport will provide a major sea link to Malaysia, Brunei, Singapore, Thailand, Myanmar, Vietnam, Cambodia, Indonesia, Laos and the rest of the world, as well as Manila, Cebu, and the rest of Mindanao. The EAGA sea gate towards the Pacific Ocean provides considerable advantage to maritime operations in terms of time and cost of operations since several maritime companies are already passing the Zamboanga Maritime Channel towards the Pacific Ocean. From the Malacca Strait, Zamboanga is the shortest route compared to the southern part of Indonesia which is twice longer in terms of distance and travel time.</p>	Region-Specific	Region IX	PPP	2018	2025	100,000,000.00	120,000,000.00	-	-	-	-	220,000,000.00

List of Priority Programs and Projects in the 2017-2022 Public Investment Programs (PIP)*
Chapter 19: Accelerating Infrastructure Development

Nr	Project Code	Project Title	Implementing Agencies		PDP Chapter	Description	Spatial Coverage		Mode of Implementation	Implementation Period		Investment Targets (in PhP Exact Amount)						
			Mother Agency	Attached Agency			Main	Region		Start	End	2017	2018	2019	2020	2021	2022	Total (2017-2022)
2279	ZCSEZA-0004	Establishment of the West Corporate Centre in the Zamboanga City Special Economic Zone Authority	ZCSEZA		chapter 19	<p>The West Coast of Zamboanga City is an emerging area in terms of business transactions and population growth. This puts the West Coast at an advantage for new enterprises, creating endless opportunities for its residents seeking jobs.</p> <p>With the basic utilities and infrastructure in place, having an accessible business center will reduce the hassle of having to complete transactions in the downtown area, at the same time addressing the needs of the thriving population. Thus, the need for a West Corporate Centre has been conceptualized to serve the 100,000 residents of the West Coast barangays.</p> <p>The ZAMBOECOZONE is an ideal location of the West Corporate Centre because of its close proximity to the different industries in the West Coast, its readiness in terms of facilities, secure area and experience in assisting new businesses during the first few years of operations.</p> <p>The West Corporate Centre brings the services to the people, providing convenience with greatly reduced time and effort exerted in completing transactions with respective offices such as Philhealth, GSIS, SSS and the like. In addition, the ZAMBOECOZONE has required manpower service providers to hold office in the zone to address labor complaints and related issues of existing locators, and to ensure swift and just action on labor matters.</p> <p>It would also be important to note that the West Corporate Centre is envisioned to become the host to Zamboanga City's own Business Process Outsourcing (BPO) industry which is regarded as the sunshine industry in the country today as it has generated a million in employment opportunities, with BPO revenues reaching 15.5 Billion in US Dollars.</p> <p>Notably, a figure of 13, 100 IT-BPO employment capacity is reported in Zamboanga City alone. The local workforce in Zamboanga City can readily handle this opportunity considering that it has an edge in the Arabic and Spanish spoken languages, considering that it is home to Chavacano and Muslim-speaking residents.</p> <p>In time, the West Corporate Centre will become the business district for the aforementioned offices since the corporate thrust is geared towards the Zamboanga City's West Coast as aligned with the proposed establishment of the San Ramon Newport and Asian Halal Centre. Because all of the business activities are anticipated to converge in the West Coast, the West Corporate Centre is envisioned to handle all bookings, dealings and trade activities while at the same time seen as an ideal training and events site in the vicinity. The underlying principles of the project are accessibility, service and convenience for the residents of the West Coast.</p> <p>The project furthermore supports the need to decongest the city by bringing economic activities to the West. It is the hope of the West Corporate Centre to bring direct, convenient and efficient business transactions within the reach of West Coast residents. Complementing the completion of the Bypass Road and the continued establishment of new businesses in the West, economic growth may not be too far away.</p>	Region-Specific	Region IX	LFP	2017	2020	9,000,000.00	170,000,000.00	120,000,000.00	120,000,000.00	-	-	419,000,000.00
2280	PalSU-0054	Establishment of Tissue Culture - Priority No. 6	CHED	PalSU	chapter 19	To support the agricultural development in the province and to contribute to the sustainability of production of the major agricultural crops in the Philippines, the PSU leads one of its priority projects to the construction of a tissue culture laboratory, a micropropagation technique of crops to enable mass production and provide quality planting materials. 2283	PVAO-0016	Establishment of Veterans Hospital in Mindanao	DND	PVAO	chapter 19	<p>The project seeks to establish a 250-bed hospital in Mindanao, specifically Tagoloan, Misamis Oriental. Presently, there is only one Veteran's Hospital in the Philippines, the Veterans Memorial Medical Center in Quezon City, to which the veterans in Mindanao do not have access to.</p> <p>By establishing a Veterans Hospital in Mindanao, the state is able to fulfill its Constitutional Mandate of providing adequate and immediate care and benefits to veterans and their dependents.</p>	Region-Specific	Region X	LFP	2018	2020	-	30,000,000.00	650,000,000.00	1,300,000,000.00	-	-	1,980,000,000.00
2284	PalSU-0021	Establishment Tissue Culture - Priority 6	CHED	PalSU	chapter 19	<p>The project will be one of the major programs of the university for the research, extension and production. It will involve the production and commercialization of disease free planting materials. The project will be established in the main campus of the Palawan State University as well as in selected external campuses namely :PSU Main Campus, PSU Narra, Quezon and Taytay. The project has an initial target clientele of 500 farmers from all over the province.</p> <p>The project will include the construction of the building for the establishment of the basic facilities of the tissue culture laboratory which include the general washing area; media preparation area; transfer area culture room and data collection area. Installation of the electrical wirings and provision of the necessary equipment , furniture and laboratory supplies are priority requirements for this project. A screened house will also be constructed to serve as nursery for the meriplants produced from the tissue culture laboratory. PSU-Campus will also establish a mini-demo farm for the banana plantation.</p> <p>The technical staff who will handle the project will also be provided with the necessary training to ensure quality and efficiency of production and maintenance of the facility. Experts from IPB-UPLB will be tapped to administer the training and to check the quality of the produced meriplants and plantlets.</p>	Region-Specific	Region IVB	LFP	2018	2022	-	6,000,000.00	1,000,000.00	1,000,000.00	1,000,000.00	1,000,000.00	10,000,000.00

2285	LRTA-0003	Establishment/Organization of Philippine Railway Training Center (PRTC)	DOTC	LRTA	chapter 19	The project involves the establishment of the Philippine Railway Training Center (PRTC), which is envisioned as the precursor to the Philippine Railway Institute that will serve as the country's center for railway competency enhancement, skills training, railway management, railway policy research and development, railway safety management, licensing and certification, and railway technology innovation. It will be initially located at the LRT Line 2 Santolan Depot in Pasig City, Metro Manila. The project components are: 1.Infrastructure (Facility improvement for the Training Center) 2.Project Management and Pre-Operation 2.1Registration of programs and accreditation with TESDA 2.2Development of Curriculum/Training Modules 2.3Staff Trainings 2.4Project Administration Instructors and resource persons will come from a pool of seasoned railways engineers and technical staff with experiences in the academe and with specialization in the fields of Railways Planning & Development, Railways Project Management, Railways Management, Railway Systems Safety Management, and Railways Operation and Maintenance. For its first phase of operation, target beneficiaries/clients are employees in the railway industry. For its next phase, it will be collaborating with technical institutions offering Railways Management and Engineering courses for their Skills Development Training Program. 2303	DOST-0074	Extension Metrology Laboratory of DOST XI	DOST		chapter 19	The project will contribute to the priorities and goals of the 2018 Budget Priorities Framework since it is listed as the first priority under MFO 3: Regional S & T Services. The existing laboratory has limited space due to the fact that there are plenty of equipment purchased under the upgrading projects of RSTL and ONELAB. This is also in compliance to international standards and in preparation of the analytical services that will be offered for ASEAN 2015.	Region-Specific	Region XI	LFP	2018	2018	-	25,000,000.00	-	-	-	-	-	25,000,000.00
2304	PSHSS-OED-0160	Extension of School Canteen - Bicol Region Campus	DOST	PSHSS-OED	chapter 19	An extension structure to accommodate the additional number of students due to the implementation of K-12 Curriculum wherein the existing canteen which can only accommodate about 120 persons at a time is not an ideal place for 540 students to take their meals.	Region-Specific	Region V	LFP	2017	2018	5,000,000.00	-	-	-	-	-	-	5,000,000.00
2305	DOST-0097	Extension of the Regional Standards and Testing Laboratory (RSTL)	DOST		chapter 19	With the ever increasing services provided and clients being served, a wider space is necessary to house the two laboratories (Chemical and Microbiological). As one of the top laboratories in the Philippines, the procurement of the necessary equipment catering to the tests needed by businesses and other clients entails a wider and more appropriate space to be able to effectively execute the physico-chemical and microbiological analyses required by concerned institutions. Such expansion would certainly enhance the services by putting equipment in their proper places which would be safer for the people working and the procured equipment housed in the laboratories.	Region-Specific	CAR	LFP	2018	2018	-	5,000,000.00	-	-	-	-	-	5,000,000.00
2306	PCAARRD-0001	Facilities Development Program - NAARRDN	DOST	PCAARRD	chapter 19	Provides research and development institutions and SUCs the necessary capacity in terms of equipment and physical infrastructure to enhance the quality of their research. 2353	DPWH-0270	Gingoog Bypass Road, incl. ROW	DPWH		chapter 19	The project is a two (2) lane road and will start at Jct. BCIR / Santiago Balason traversing the flat area at the southern side of the city and ends at Jct. BCIR & Barangay San Juan. The scope of works is concreting of 7.9 km. road with drainage and slope protection works and construction of three (3) Bridges, 100 Lm. This project aims: to decongest the Butuan & Cagayan de Oro & Iligan Road (BCIR), Gingoog Section; to enhance additional Industrial, Agricultural and Tourism Development at Southern portion of the city.	Region-Specific	Region X	LFP	2017	2019	80,000,000.00	226,000,000.00	114,000,000.00	-	-	-	420,000,000.00	
2354	PalSU-0026	Going Green Program: Establishment and Construction of Green Building	CHED	PalSU	chapter 19	Climate Change Mitigation programs had been an advocacy of the Campus. Last June 2016, the Municipality of Roxas declared state of calamity due to deficient supply of water in the area caused by drought. Longer periods of drought and rainy season are being experienced by the Municipality for over a period of three years already. This is an apparent manifestation that climate change is really affecting the lives of the people of the Municipality. It is an advocacy of the Campus to partake in the climate change mitigation thru creation of the "Go Green Program". This is a program where the Campus aims to gradually transform its physical facilities as well as retrofitting its existing physical facilities towards green building forms. One of the projects under this program is the establishment and construction of the green classroom building. This project aims to provide the students a multi-purpose building which will house different student activities. The Municipality of Roxas is the former location of vast production and mining of silica, thus this program will not only improve the campus site but will greatly contribute in climate change mitigation as it involves establishment of a structure that uses environmentally responsible processes and resource-efficient throughout a building's life-cycle: from sitting to design, construction, operation, maintenance, renovation and demolition. The Campus being a self-liquidating institution with no GAA from the government cannot suffice the need for the construction of additional buildings needed to house various student activities. Funds are primarily collected from the students while the LGU-Roxas provides financial aid annually in the amount of two million pesos which are being utilized as salaries of the campus personnel. Currently, the campus has a total of 1,603 enrollees with classes from 7:30am until 9pm on weekdays and 7am-7pm on weekends due to inadequate number of buildings in the Campus. The administration is aware that student's safety is compromised by the class schedules mentioned above. With the given environmental situation that the country is facing, construction of green building will greatly contribute to climate change mitigation. Also, the project will provide the students conducive learning environment. Construction of green building is part of the Campus Strategic Development Plan, however; due to limited funds, the desired establishment of the green building remains a dream for the campus administration. Hence, this proposal.	Region-Specific	Region IVB	LFP	2018	2018	-	3,000,000.00	-	-	-	-	-	3,000,000.00

2555	CDA-0011	Infrastructure Project for the CDA Central Office and Extension Offices (Building Improvement, Renovation and Repair of Office Building, Perimeter Fencing of Office Lot, Construction of New Office Building and Center for Cooperative Excellence)	CDA		chapter 19	With this project, the employees will have adequate and conducive working area that will redound to efficient and effective work performance and improved productivity. The project can boost the morale of CDA Workforce toward the realization of the CDA's goals and objectives to create an excellent and high performing organization and an effective and efficient delivery of service to our clientele. The infrastructure project is envisioned also to accommodate various coop activities that would bring closer partnership among the CDA, the coop sector and other stakeholders. Currently, there is a low turnout of coop compliance to required trainings of officers because of high training cost. With this project, the sector can avail of the very affordable rental fee for the conduct of seminar/ trainings. Thus, the project will also contribute to the advancement of coops in the Philippines.	Nationwide		LFP	2017	2022	11,003,000.00	245,500,000.00	122,000,000.00	17,000,000.00	34,000,000.00	17,000,000.00	446,503,000.00	
2556	STII-0001	Infrastructure Rehabilitation and Improvement of STII Building	DOST	STII	chapter 19	The STII has been doing communication and information work for more than two decades. It seeks not only to inform but influence people. Thus, STII's advocacies and communication efforts are geared towards building a positive, credible image for S&T. As the trends and developments in communication and information service advances rapidly, STII must also keep pace in terms of infrastructure (building facilities and work systems) in order to better serve its variety of clients. STII's present physical structure has become outdated with almost half a century in existence and badly need rehabilitation and renovation. A building makeover is necessary not only for appearance sake but more for sending the message that S&T information is updated and open to everyone. The building must match the newness manifested in STII's activities, people and equipment that are presently housed in it. 						<p>Phase III. Traffic Signal Upgrading-System upgrading of field facilities including replacement of local controllers at 156 intersections, loop detectors, cable and civil works, pavement markings and road signs installation and signalization; Communication network for 161 intersections. Phase IV. Supply and installation of underground fiber optic communication network at 161 signalized intersection to be connected to the MMDA Command Center Traffic Signal Control System: A. Traffic Signalization of 50 New Warranted Intersections B. Purchase of equipment for the maintenance of traffic signals in Metro Manila C. Traffic Signalization of 50 warranted additional intersections Phase V. A. Traffic signalization of 50 warranted intersections and integration to the existing Traffic Signal Control System including installation of LED lightings in the intersections B. Supply and Installation of Traffic Signal Enforcement System (TSES) at 10 intersections and Speed Violation Detection System (SVDS) at 5 locations C. Supply and Installation of Vehicle Detection System (VDS) at 10 locations and Variable Message Sign (VMS) at 14 locations D. Supply and Installation of High Definition CCTV cameras (latest model) at 30 critical intersections in Metro Manila E. Expansion of Existing Command Center Building (including office fixtures and facilities)</p> <p>Module B: Communication and Monitoring Phase I. Supply and Installation of CCTV Devices along EDSA (Monumento to Taft Avenue), Rizal Avenue (from Monumento to Baclaran), and Aurora Blvd. (Recto to Santolan). Phase II. Supply of road safety devices particularly IP CCTV camera on the southern portions of Metro Manila transmitted through a wireless platform and integrated to the existing network of the MMDA surveillance system. Phase III. Supply and installation of road safety devices along EDSA, Commonwealth Avenue, Quezon Avenue and E. Rodriguez. Phase IV. Supply and installation of road safety devices along EDSA, C-5, Marcos Highway, Quezon Avenue and E. Rodriguez. Phase V. 1. Installation of 250 units of CCTV cameras with complete communication system at major signalized intersections 2. Upgrading of Bus Priority System/Bus Management Dispatch System with complete communications system 3. Installation of 20 units of speed cameras with complete system along major roads in Metro Manila.</p>

2564	MIRDC-0032	Intervention Program for Climate Change	DOST	MIRDC	chapter 19	<p>Climate change impact bring disasters which can be either man-made or natural. Flood and erosion is a common manifestation of both type of disasters while typhoon and earthquake are examples of natural phenomenon. Whereas man made flood and erosion is brought by mismanagement of garbage which ended in waterways.</p> <p>Municipal solid waste (MSW) management is essential to a developing country like the Philippines. It has a direct impact on health of the population and the environment. The adverse impact on direct exposure of human population are diseases and pests infestation (insects, rodents etc). Improper management of solid waste results to increased flooding and detrimental to infrastructure due to clogged waterways.</p> <p>In 2008 and 2012 , an estimated \$2.2 billion in damage due to flooding and in 2009 killed about 1,000 people and caused more than \$1 billion in damage (PhilStar, Aug 2013). Natural disaster occurrence reported by the United Nations Office for Disaster Risk Reduction ranked flood second which contributed to human and economic losses from 1980-2010 (Preventionweb.net).</p> <p>Significant volume of waste are dumped along the water ways, roads, vacant lot and shorelines. Based on the National Solid Waste Management Status Report CY 2008-2014 of DENR National Solid Waste Management Commission, Metro Manila alone is projected to generate of up to 4.4-M Metric Tons per year in 2020. Metro manila wastes alone contributes 26.7% of the country's solid waste.</p> <p>An audit conducted by the environmental groups found that the most common garbage found in the Manila bay are plastic bags. Approximately, the top pollutant at 61.9% of the garbage were made of plastic followed by plastic wrappers at 18.8%. (Rappler, July 2014)</p> <p>About 56.7% of the waste generated are residential followed by 27.1% from commercial. and 52.31% of it are biodegradable and 27.78% are recyclables. In 2014, there are about 8,656 Materials recovery facility in the Philippines which serves 10,327 barangays.</p> <p>The Philippines whose location in the Pacific Ocean is strategic has at the same time tragic consequences. The Pacific Ocean is home to typhoons which come to the Philippines on the average of 20 each year. Add to this the "Ring of Fire" around the Pacific from which about 90% of the world's earthquake occur and around the rim of the Pacific Ocean are many volcanoes which is called the "Pacific Rim of Fire" (http://www.windows2universe.org/earth/interior/RIM_oCFIRE.html). All of which contribute to thedisasters in the Philippines.</p> <p>The program aims to develop an industrial shredder that would support the recycling of municipal wastes and dump sites near and within Metro Manila. The equipment is powered by two hydraulic motor with automatic torque sensor which reverses the motor direction when the maximum amount of torque is reached. This will prevent the clogging in between the shredding teeth of the assembly for a continuous smooth operation. Also, the Establishment of a Waste Plastic Molding Facility in support to recycling campaign by the national government. While continuing research and development for the improvement and piloting activities such as trashrake for clearing waterways of garbage and the meteorological buoy for weather forecasting and navigational safety will mitigate and reduce adverse effects of disasters.</p> <p>Project Purpose: Waste Management 1. To develop an industrial shredder to reduce the volume of generated municipal waste by at least 30%. 2. To process the shredded wastes into various valuable products. 3. To establish a facility for recycling waste plastics. 4. To pilot the improved prototype in three selected areas Disaster Mitigation and Reduction 1. To pilot the improved prototype in selected areas 1.1 Trashrake (5 areas) 1.2 Metbout (10 areas) 2. To establish the actual performance</p>	Region-Specific	NCR	LFP	2018	2021	-	20,000,000.00	130,000,000.00	130,000,000.00	40,000,000.00	-	320,000,000.00

2579	DPWH-0112	Jct. Batasan-San Mateo-Rodriguez By-Pass Link Road, Phase III & IV, incl. ROW	DPWH		chapter 19	The proposed bypass road has a total length of 10.20 km divided into four (4) phases. Phase I starts at Km 21+057.5 and ends at Km 22+859.5. It is a non-existing road that will traverse urbanized residential and commercial areas. Phase II is the continuing link of Phase I at Km 22+859.5 and ends at Km 24+359.5. It is an existing 2-lane PCC pavement constructed in 2001 which needs rehabilitation. Phase III is the continuing link of Phase II at Km 24+359.5 and ends at Km 26+359.5. It is an existing road with a combination of PCC pavement and gravel surface that traverses an agricultural land. Phase IV starts at Km 26+359.5 until it reaches a mountainous and winding area where the project road terminates at Km 31+259.5. The proposed bypass road would require the acquisition of a 20 meter Road-Right of Way (RROW) and the conduct of the topographic survey to determine the horizontal and vertical alignments of the proposed bypass road, which will be undertaken during the detailed engineering design phase. Project Objectives are the following: 1. Compliment with the proposed circumferential road (C-6) project. 2. To enhance economic development of Rizal and	Region-Specific	Region IVA	LFP	2014	2018	100,000,000.00	71,720,000.00	-	-	-	-	171,720,000.00
2580	DPWH-0254	Jct. Buda, Quezon -Jct. Valencia- Talaingod Road-Kalagangan, San Fernando Alternate/By Pass Road, Quezon, Bukidnon incl. ROW	DPWH		chapter 19	The project is a two (2) lane road and will start at the Poblacion Quezon passing the hinterland barangays and will end at Kalagangan, San Fernando, Bukidnon. The road runs through a flat, rolling and mountainous terrain. The proposed road stretches 31.6 kms in road opening and barangay roads. The scope of works are opening, gravelling with drainage of 31.60 kms. and construction of four (4) Bridges with a total length of 200 l.m. This project aims: to provide an alternate route in going to Tagum City from Camp 1, Maramag, Bukidnon passing the Kapalong & Talaingod Road; it will led to the opening of more land for agriculture; develop tourism spots in the area; improve peace and order.	Region-Specific	Region X	LFP	2017	2020	400,000,000.00	200,000,000.00	200,000,000.00	200,000,000.00	-	-	1,000,000,000.00
2581	DPWH-0301	Jct. Daang-Maharlika Road-Mudiang-Malagamot-Indangan-Cabantian-Tigatto Road including Bridge and RROW	DPWH		chapter 19	The bypass road starts at Jct Daang-Maharlika Road (N1) passing thru Mudiang-Malagamot to Jct. Indangan. The road which is of flat terrain has a total length of 7.850 km and reconstruction of 20 m Mudiang Bridge. This is an alternative route to the Daang Maharlika Road to Panacan to ease traffic congestion along busy Bridge section at Panacan Bridge and intersections between Daang Maharlika Road and Davao City Diversion Road. 3170	DPWH-0059	Mahaplag-Hilongos Road	DPWH		chapter 19	The proposed 48.20 km Mahaplag Hilongos Road aims to strengthen growth in Region VIII by providing alternative route from/to Tacloban City to the Southwestern Leyte. The road will enable shorter and faster transport of people, goods and services to other areas in Leyte. Currently, developments in the region occur in coastal areas such as Tacloban City, Baybay City and Ormoc City where national roads traverse. The road will open opportunities for businesses consequently providing more employment opportunities especially in the inner areas of the province. Furthermore, this will also serve as an alternate route in case Tacloban-Baybay-South Road and Daang Maharlika will be closed to vehicular traffic due to road slips and landslides	Region-Specific	Region VIII	LFP	2017	2020	100,000,000.00	395,400,000.00	271,400,000.00	236,572,000.00	-	-	1,003,372,000.00
3171	DPWH-0374	Mahayag-Gatungan-Callawa Diversion Road	DPWH		chapter 19	The bypass road starts at Jct Daang Maharlika Road (N1) passing thru Mahayag Road to Gatungan Road up to Callawa Road. The road which is of flat terrain has a total length of 11.129 km under 2nd Congressional District of Davao City. This is an alternative route of Jct. Daang Maharlika Road in order to ease traffic congestion along busy road at Tibungco to Panacan Section.	Region-Specific	Region XI	LFP	2020	2022	-	-	-	294,880,000.00	148,470,000.00	195,440,000.00	638,790,000.00

Chapter 19: Accelerating Infrastructure Development

Nr	Project Code	Project Title	Implementing Agencies		PDP Chapter	Description	Spatial Coverage		Mode of Implementation	Implementation Period		Investment Targets (in PhP Exact Amount)						
			Mother Agency	Attached Agency			Main	Region		Start	End	2017	2018	2019	2020	2021	2022	Total (2017-2022)
3173	DPWH-0052	Major Mane to Kennon Road By-Pass Road	DPWH		chapter 19	The proposed bypass road will include a road opening of 1.080 km that will start from Sta 3+140 existing dirt road to Kennon road at station K0243+100 which is 0.90 km in physical length and traversing Demonstration Mines connecting to an existing paved barangay/local road. It will also include the construction of Reinforced Concrete Deck Girder Bridge (RCDG) with a physical length of 0.050 km and the rehabilitation/reconstruction and improvement of drainage of existing Barangay/Local road, 2.24 km in length, which is adjacent to Loakan Airport, Philippine Economic Zone Authority, Camp John Hay/ Baguio Country Club, and Philippine Military Academy which are an Economic, Tourists, and Military Destination/Institution. In all, the proposed project will have a total physical target length of 4.220 km. The proposed project will also include Roadway and Structure Excavation for road widening and construction of Slope Protection (such as Reinforced Concrete Retaining Walls, Cribwalls, Stone Masonry and Grouted Riprap) along both the Mountain and Cliff side of the road. Reinforced Concrete Box Culvert will also be proposed along galleys/waterways intersecting the proposed road. 3200	BOC-0001	Manila Maritime Trading District Development Project	DOF	BOC	chapter 19	The Manila Maritime Trading District Development Project (MMTDDP) is a mixed-use development project with a planning area of approximately 474 hectares, to be initiated by the Bureau of Customs (BOC). MMTDDP is included under the BOC's proposed Comprehensive Master Development Plan, which is one of the priority projects under the Bureau of Customs' Six (6) Point Priority Project (BOC-PT-PP). In order to address the government's socioeconomic agenda, there is a pressing need to fully utilize the 474 hectare space of both the Manila ports which is envisioned to accommodate more than 3,500 vessels and around 1 million containers of trade-in goods annually. The MMTDDP is consistent with the national long-term vision of the Philippine Development Plan (PDP) 2017-2022 and takes off from the Administration's Zero-plus-10 Socioeconomic Agenda. As the Administration gives particular emphasis on the role of modernization as an engine of growth and development and also among the priorities of a long-term national development strategy, there is a pressing need to modernize and optimize our Manila ports to accommodate the changing international economic and market	Region-Specific	NCR	PPP	2017	2022	81,000,000,000.00	81,000,000,000.00	81,000,000,000.00	81,000,000,000.00	81,000,000,000.00	81,000,000,000.00	486,000,000,000.00
3201	DPWH-0260	Manolo Fortich - Misamis Oriental /alternate by pass road including Bridge	DPWH		chapter 19	This is a two (2) lane road and will start at Jct. Sayre Highway / Dalrig, Manolo Fortich towards Barangay Agyawan, Sampiano of Malitbog and ends at Jct. Misamis Oriental & Bukidnon Agusan Road / Barangay Klingking, Malitbog, Bukidnon. The road traverses a rolling and mountainous terrain and stretches 33.30 km in an existing provincial road and road opening. The scope of work are concreting, gravelling with drainage and slope protection works and construction of 2 Bridges, L=220 l.m. This project aims: reduce travel time; provide new road link from Bukidnon to Misamis Oriental to have direct access to outskirts of Cagayan de Oro City; mitigate traffic congestion of Sayre Highway and Cagayan de Oro City; promote agricultural development in the area; promote peace and order.	Region-Specific	Region X	LFP	2017	2023 and beyond	123,448,000.00	175,000,000.00	173,997,000.00	150,000,000.00	300,000,000.00	300,000,000.00	1,222,445,000.00

It starts at Jct. Padada passing through Colonsabac and Datal Fitak and ends at Columbio, Kiblawan. The general surface of the road is gravel and earth in fair to very bad condition. The road traverses through predominantly rolling to mountainous terrains.	Region-Specific	Region XI	LFP	2015	2019	300,000,000.00	539,004,000.00	522,271,000.00	-	-	-	1,361,275,000.00
3216	NONESCOST-0034	Materials Recovery Facility	CHED	NONESCOST	chapter 19	Materials Recovery Facility and Amenities	Region-Specific	Region VI	LFP	2020	2020	-	-	-	2,400,000.00	-	-	2,400,000.00
3217	DPWH-0307	Mati Diversion Road, incl. ROW	DPWH		chapter 19	Construction of a Bypass/Diversion Road to Reduce travel time along National Road Network that Traverse Central Business Districts	Region-Specific	Region XI	LFP	2015	2017	13,391,000.00	-	-	-	-	-	13,391,000.00
3218	DPWH-0306	Mati-Tarragona By-Pass (Lucatan-Tagabakid Road), incl. ROW and Bridge	DPWH		chapter 19	The proposed road is intended for the construction of Bypass Road (Mayo-Tagabakid-Lucatan Road) City of Mati & Municipality of Tarragona. It will start from National Highway Junction (Surigao del Sur Bdry. - Davao Oriental Coastal Road) with a length of 15.987km and junction of Mayo National Highway (Pres. Diosdado P. Macapagal - to Davao Oriental Coastal) with the length of 4.281km, with a total length of 20.268km. Projects include Construction and Improvement of Road, Bridge, Drainage Structures & Slope Protection. The Construction of Mayo-Tagabakid- Lucatan Bypass Road, City of Mati, Davao Oriental serves an alternate road between Davao Oriental District I and II. The existing national road along Surigao Sur Boundary - Davao Oriental Coastal Road particularly at MuAoz-Bogakan Section is prone to landslide due to movement of soil considering that fault line is located in the area as identified by Mines and Geosciences Bureau (MGB). This would likewise stir the development of the emerging tourist destinations at Tagabakid-Lucatan. Since the area is rich in agricultural and marine products with Eco-tourism potential, the improvement of this road is a big boost to the province economic reform agenda.	Region-Specific	Region XI	LFP	2016	2018	245,000,000.00	71,067,941.00	-	-	-	-	316,067,941.00

3239	MMDA-0007	Metro Manila Open Space Network	MMDA		chapter 19	The Metro Manila Open Space Network Program will establish the spatial and policy guidelines necessary to implement a metro-wide system of open spaces and provide detailed design for priority corridors. The Metro Manila Open Space Network will enhance the quality and accessibility of open space to create a livable and sustainable urban environment. Open space includes street space, waterway easements, green space, and other areas such as plazas which are designated for public use as inclusive mobility, recreation, and leisure and are crucial to protect for flood prevention, biodiversity, urban heat reduction, and air quality. Furthermore, open spaces play a vital role in disaster response providing access during emergencies and serving as evacuation areas during earthquakes. A network of quality open spaces directly contributes to the mental and physical health of all urban citizens. 3253	UP-0058	Modernization of the UPLB Museum of Natural History (UP LOS BANOS)	CHED	UP	chapter 19	<p>The UPLB Museum of Natural History (MNH) is a university-wide unit dedicated to the exploration, documentation and preservation of the Philippines' biological diversity. Its primary role is for the safekeeping and maintenance of priceless and irreplaceable natural history treasures acquired through university-based research and collaboration. Indeed, the MNH performs part of the University's commitment to the advancement of world science and plays active role in upholding the U.N. Convention on Biological Diversity. The museum houses many priceless specimens, which showcase the exceptionally rich biodiversity of the Philippines. It is a repository of early (pre-war) natural history collections made by UPLB pioneers, namely Baker, Uichanco (insects), Price and Copeland (ferns), including one of UPLB oldest specimens collected in late 1800's. As a university museum, it accommodates other equally important collections of eminent UP scientists, namely Raros (acar), Sanchez (microbes), Barrion (spiders), Quimio (fungi), Pancho (vascular plants), Baltazar (insects), Fernando (palms), Cuy (ectoparasites), Gruezo (lichens) and Eduardo (parasites). The MNH houses nearly a quarter of the world-famous collection of celebrated wildlife biologist, Dr. Dioscoro S. Rabor, who collected over 60,000 specimens. Rabor's specimens are deposited in various museums worldwide, including Yale Peabody, Delaware MNH, The Smithsonian, Field Museum, Bernice Bishop museum, American MNH, MSU-Marawi and Silliman University.</p> <p>Since its establishment in 1976 (by virtue of 877th UP BOR), majority of the collections remain scattered in their original host units, due to limited space available at the MNH (old FORI) building. It is crucial for the museum to expand and convene all the collections under one roof, and at the same time upgrade its facilities, which is therefore essential to achieve world-class standards. MNH is fortunate to have a pool of world-renowned experts in taxonomy to serve as curators of globally recognized natural history collections. Currently, it has 37 museum curators, which comprise 28 Curators, 3 Adjunct Curators, 5 Curator Emeritus, and 3 Visiting Curators from Germany and USA. MNH curators are the leading taxonomists of the country, some conferred as UP Scientists, NAST Academicians, and Professor Emeritus. In support of the Director and museum, there are 18MNH Staff, wherein 10 are Administrative and 8 are REPS, and some are recipients of Outstanding Personnel and Civil Service Awards.</p> <p>The MNH is a widely recognized education centre for various schools and universities. It is an integral part of UPLB's Eco-tourism village and Science community. For their efforts, it was honored as the UPLB Outstanding Extension Program, with their active research programs in Cave Biodiversity and Small Islands Biodiversity. It continues to serve as a strong research and extension arm of the University of the Philippines. It represents a significant landmark and must-see destination for tourists and educational field trips in UPLB. However, the need to accommodate the increasing number of biological collections entails expansion of the MNH, which also permits construction of additional exhibits, dioramas for a continued growing public patronage. Moreover, with the expected five-fold increase in visitors, once modernization to the new building is achieved.</p> <p>The MNH as a university-wide repository, and therefore essential for taxonomic studies and serves as the basis for biodiversity R&D. It holds the country's largest collection of insects, mites and spiders (approx. 200,000 specimens); the largest collection of mammals (>7,000 specimens); the second largest collection of plant specimens (almost 80,000); the largest bird collection derived from the monumental Rabor collection; and the first microbial and algal culture collection registered with the World Federation of Culture Collections. Indeed, a modernized, high-quality museum is extremely important to ensure long-term protection of hard-sought collections. It is adamant for MNH to scale-up standards in museum research and collections management, and become at par with international scientific community.</p>	Region-Specific	Region IVA	LFP	2018	2020	-	35,713,000.00	60,547,500.00	9,655,128.00	-	-	105,915,628.00

3283	PRC-0001	NCR Professional Development and Examination Center of the PRC in Pasay City	DOLE	PRC	chapter 19	<p>The PRC and the 43 Professional Regulatory Boards (PRBs) have been housed in a building which was built long before the PRC was created in 1973. The building has reached obsolescence and has become an image of unprofessionalism among the professionals and other stakeholders.</p> <p>Likewise, the new PRC staffing pattern under the reorganization plan will certainly require a bigger and wider space to accommodate the employees. The role of the PRBs is continuously expanding due to multilateral, bilateral and other international trade agreements where the Philippines is a signatory and requires constant coordination with stakeholders.</p> <p>Further, the Commission needs a testing center as it conducts examinations every week in various sites nationwide as well as overseas. It is scheduled to hold eighty-seven (87) licensure examinations in 2017, which is expected to serve more than five hundred thousand (500,000) examinees. The PRC has been experiencing diminishing supply and/or increasing costs in the procurement of examination venues. There are more professional licensure examinations being held and more professionals taking these examination. With the implementation of K to 12 program, the PRC has to compete for the use of private and public schools as these institutions have to accommodate the students for the additional school years.</p> <p>The new PRC building is envisioned to project an image of professionalism and transparency reinforcing PRC's role in the development of ethical and globally competitive Filipino professionals.</p>	Nationwide		LFP	2018	2022	-	240,000,000.00	379,977,550.00	379,977,550.50	-	-	999,955,100.50

3286	DPWH-0170	New Bacolod Economic Highway (BASAAR II), Section 1, incl. ROW	DPWH		chapter 19	This project consist of the construction/Opening of new road with right of way acquisition, rehabilitation and upgrading of existing road, construction of series of box culverts and reconstruction of one (3) bridges. The existing national road, specifically Bacolod North Road is observed to be inadequate to serve the present transport system. This proposed road will decongest Bacolod North Road and will accommodate northbound loaded trucks especially those sugarcane haulers going to the mill. It will also serve as a vital link of the agricultural and urban areas providing access to the delivery of farm products to the market.	Region-Specific	Region VII	LFP	2017	2020	200,000,000.00	436,216,000.00	394,144,000.00	154,080,000.00	-	-	1,184,440,000.00
3287	DPWH-0171	New Bacolod Economic Highway (BASAAR II), Section 2, incl. ROW	DPWH		chapter 19	The road section is an alternate circumferential road to the existing circumferential road bypassing the busy Bacolod City Central Business District. The project road is a generally non-existing road that would generally traverse sugarcane plantations. Scope of work includes concreting of 4-lane road, 2-way bike path, landscaped sidewalk with curb and gutter, drainage, slope protection works and provision of streetlights on both side of the roads. The road project aims to provide an alternate route that would decongest the Bacolod North Road (Bacolod City Section) and the existing Bacolod Circumferential Road and to provide a direct link to Bacolod-Silay Airport Road. This will envisaged to realize significant vehicle operating and time cost savings and boost tourism development in the project area. 3303	NVSU-0018	NVSU Mushroom Research Resources Development Center	CHED	NVSU	chapter 19	Mushroom provides not only nutritional benefits but economic benefits as well. Supporting the mushroom industry is vital in developing the rural economy, enhancing employment and opening income opportunity in the rural communities in the region as well as providing income to the small farmers. Growing mushrooms is economically feasible in the province as proven by the initial efforts in the creation of mushroom growers. However, due to the lack of location, specific technologies of mushrooms in the province yield were affected. Production of mushroom in the province was considered low in which high demand of fresh mushroom was recorded. With this, Nueva Vizcaya State University aims to establish NVSU Mushroom Research Resources Development Center (NMRRDC) to systematized mushroom production specifically on research, development and training. the main vision is to conduct research, extend trainings, showcase and demonstrate up scaled technologies in mushroom production. it aims to be the mushroom center in Region 2. 3323	DPWH-0215	Ozamis City Coastal By-Pass Road	DPWH		chapter 19	The project has a total length of 7.4 kms., a proposed reclamation area along the port coastal periphery with a provision of a road embankment. It is aimed as the future urban coastal development site a portion of which is planned for port related amenities/services as well as urban projects dedicated to commercial and tourism related projects. This project aims: decongest traffic Problems in the locality; new road directly leads to sea port and connects Ozamis and Tangub Cities; reduction in travel time by 30 min.; boost local economy since a large coastal area being included by the new road will be reclaimed by the LGU for commercial use.; improve peace and order situation in the locality; relocate about 300 residents to a more livable and healthier location.	Region-Specific	Region X	LFP	2013	2018	100,000,000.00	311,000,000.00	-	-	-	-	411,000,000.00
3324	DPWH-0214	Ozamis City-Clarín Interior By-Pass Link (OCCIBAL)	DPWH		chapter 19	The OCCIBAL is a 10.90 kms. Airport link that starts at the junction of the National Road in the neighboring town of Clarín at the Boundary with Ozamis City traversing the barangays Gango, Bacolod, Carangan, Lam-an, and BaAsadero and terminates at the junction of the National Highway. In addition to the airport related traffic, the 5.80 kms. OCCIBAL would also benefit through traffic vehicle movement and would offer a trip distance savings of 1.4 kms. as compared to the present route of 7.2 kms. via the existing national road. The related access roads, on the other hand, will provide a direct link from Ozamis City to the airport.	Region-Specific	Region X	LFP	2014	2018	50,000,000.00	130,000,000.00	-	-	-	-	180,000,000.00

3334	DPWH-0378	Panabo City Bypass Road	DPWH		chapter 19	This project is a local road with a total length of 9.20 kms and a total estimated cost of P315 Million. The project involves road opening, concreting of gravel road including drainage structures, slope protection and RROW acquisition. Panabo city is one of the fast growing cities in the Province of Davao del Norte in terms of agri & business, commercials and its residency. One of the vital infrastructure components that need to be constructed in the said locality is a bypass road. This is in order to meet the pressing demands as part of its growth particularly at the urban area and business districts of the city where traffic congestion is a major problem. This takes place from km. 1476 + 000 to km. 1480 + 000 of Agusan & Davao Road (Daang Maharlika), a national arterial road. 3367	DAP-0002	Physical Expansion of the DAP Conference Center in Tagaytay City	DAP		chapter 19	The National Government recognizes the important role of the Development Academy of the Philippines (DAP) in transforming the bureaucracy to become more efficient, more effective and more responsive to its mandates. In furtherance of this purpose, the National Government deemed it necessary to strengthen and expand the capability of the Academy to provide both general and highly specialized courses for government officials to make the Academy the anchor of efforts to capacitate the bureaucracy. Part of this initiative is the physical expansion of the existing conference and training facilities of the DAP in Tagaytay City. The goal is to re-master plan the 4.08 hectare site of DAPCC Tagaytay and construct additional facilities to accommodate the anticipated increase in number of programs/project/interventions and participants of these programs. 3519	PTRI-0002	Rehabilitation and Expansion of the Long Staple Fiber Processing Pilot Plant Area	DOST	PTRI	chapter 19	This is the 2nd year of project implementation. The area houses equipment preparatory to yarn production such as fiber cutting, mechanical softening, carding, intersecting gill, roving, and spinning) and related auxiliaries. As these were acquired over time, the area as well as the working environment no longer supported optimum conditions for operations. The repair and renovation is made even more necessary with the PTRI's thrust to produce indigenous materials in support of products that can have niche in both the domestic and global markets. The ceiling height has to be raised for better ventilation and to improve the level of humidity, a critical consideration in fiber and yarn processing. Also as the Institute gears up towards completing the non-woven processing line, there is a need to procure additional pre-processing equipment before the final needle punching. A suitable space inside the proposal expansion of Long Staple Fiber Processing Pilot Plant has been identified to house all these additional machineries to assist clients in start commercialization and non-woven technology adoption. With all the proposed activities and machineries, cooling and exhaust systems have to be put in place to support optimum working environment. working area will be expanded to allow sufficient space for movement of materials and personnel. Electrical wire provisions have to be upgraded and adjusted to consider the present-day equipment complement from 40KWH to 70 KWH load capacity and three-phase electrical system. The roofing (and ceiling) has likewise to be changed and insulation added to temper heat generated during manufacturing activities. Scope of works to be done: - Expansion of frontage area (horizontal expansion) to allow for improved working space - Expansion of ceilings with insulation and expansion of working areas to consider with the extension to the frontage area above - Installation of cooling and exhaust systems - Interior and exterior repainting	Region-Specific	NCR	LFP	2017	2018	3,000,000.00	4,000,000.00	-	-	-	-	-	7,000,000.00

3582	MIRDC-0040	Rehabilitation of the Materials and Process Research Division's Foundry Building	DOST	MIRDC	chapter 19	(This was previously proposed to be a Locally Funded Project. The project can be a component under the Metals Industry Research Program in the MIRDC PREXC Structure to be implemented in 2018) The Foundry Building of MIRDC is one of the oldest buildings built in the mid 1970's and is being used for metalcasting activities. The building has an area of 3,680 sq meters, of which 2,400 sq. meters are dedicated to foundry production area. The remaining area covers the staff office. For the last 40 years, there has been no major repairs of the structure. Hence, the building has deteriorated and needs major rehabilitation. Also, to meet the demand of the metalcasting industry for new technologies and facilities in Research and development as well as Product Development, the Center has envisioned to establish a Foundry Institute to be located inside the foundry building. This proposal will be able to repair and renovate the damaged and dilapidated rooms and shops of the Foundry Building which has deteriorated due to wear and tear and exposure to extreme heat and vibration. With the building's rehabilitation, the Center can efficiently provide services, consultancy, research and development	Region-Specific	NCR	LFP	2018	2020	-	24,000,000.00	48,000,000.00	26,000,000.00	-	-	-	98,000,000.00

3593	UP-0082	Rehabilitation, Renovation, and Modernization of the Gonzalez Hall-2 (UP DILIMAN)	CHED	UP	chapter 19	The Gonzalez Hall was one of the first buildings constructed in the Diliman Campus at UP. The budget used for its construction came from the War Reparation Funds and the cornerstone for the building was laid by then UP President Bienvenido S. Gonzalez in 1949, to whom the building was eventually named. The Gonzalez Hall is a stately structure dominated by a grand entrance crowned with a replica of the University Seal. The original symbolism of the design of the design of the 3-storey structure simulates a bird in flight: its North and South wings like an eagle's outspread wings and its solid nine deck East wing emanating from the center represents the powerful body. It was designed by no less than our National Artist Juan F. Nakpil for over fifty years ago which makes the building one of our National Cultural Treasure. The building is located along the campus' major development axis running along the University Avenue from the entrance along Don Mariano Marcos Avenue. It is in direct view from the oblation thru Quezon Hall. It is bounded in the North by Osmena Avenue, in the South by Roxas Avenue, in	Region-Specific	NCR	LFP	2018	2020	-	395,000,000.00	-	-	-	-	395,000,000.00
3594	PN-0002	Rehabilitation/ Construction of Navy Pier at Camp Panacan, Davao City	DND	PN	chapter 19	"This project will entail the rehabilitation of PN ageing pier in Southern Philippines, particularly in Davao City, to ensure that we have facilities where our bigger ships can be repositioned to cover the maritime areas of Southern and Eastern Philippines, which require bigger ships to operate due to sea conditions. Further, because of the significant cost needed in the construction of piers, rehabilitation of existing pier within naval bases is deemed to be more cost effective than constructing a new one. The importance of pier as mission-essential facility for navy ships to sustain naval operations and humanitarian assistance and disaster response operations is never a doubt for its intended purpose. Among these are the replenishment at port and the conduct of minor repairs. The replenishment at port, like refueling, re-watering and stocking of food and other provisions, is necessary to sustain the ship when at sea. Also, it was only during port stay of ships and watercraft that critical equipment aboard ship, like main engines and power-generating sets can be well-rested thus, preventing costly equipment from its early wear and tear and maximizing its potential economic operating life." 3655	UP-0087	Renovation of Sanggumay Residence Hall (UP DILIMAN)	CHED	UP	chapter 19	As the flagship campus of the country's national university, The University of the Philippines-Diliman is aware of its new challenges and opportunities in rapidly globalizing world. The need to keep up with the modernization and international standards has never been more vital and crucial in order to continue its leadership and competitiveness in Philippine higher education. The quality of education is not just confined within the four walls of a classroom but extends to the general welfare of its students and staff, especially those who will be coming from the far-flung regions of the country. The deteriorating state of the buildings has affected the quality of life of students for several years, the rehabilitation of student housing will hopefully make a difference to the livability of each dormitory. 3660	FPRDI-0016	Renovation of the Old FPRDI Laboratory Building	DOST	FPRDI	chapter 19	The Old FPRDI Laboratory Building, wherein different Administrative Offices are located, was constructed thru US Aid last March 1955. Major structural components of the building and its offices are made of wood. Ceiling materials were made of asbestos wherein it was declared cancerous for human exposure. Also, the insulation of existing electrical wire were in the stage of deterioration.	Region-Specific	Region IVA	LFP	2015	2018	9,500,000.00	3,000,000.00	-	-	-	-	-	12,500,000.00
3661	NAST-0004	Renovation of the Philippine Science Heritage Center	DOST	NAST	chapter 19	The Philippine Science Heritage Center (PSHC) is a prime government center established in 1998 to honor Filipino scientists and their contributions to the world of science. Republic Act 9107, or the Philippine Science Heritage Center Act was enacted in 2001, mandated the National Academy of Science and Technology to manage, operate and maintain the Center. RA 9107 identified five functions of the PSHC, namely: <ul style="list-style-type: none"> • Document the works, ideas, inventions and products of Filipino scientists and other accomplishments in the field of science and technology • Establish a display area for samples of inventions, scientific products, memorabilia, references and library materials; • Produce printed materials to be used by the academe in teaching values education with scientific insights, and which maybe used as an alternative source of information for the general public; • Serve as core network of science museums in the Philippines; and • Perform such as maybe necessary for the effective implementation of the Act. The operation and maintenance of the PSHC fulfills the visions and strategies identified under the Philippine Development Plan, DOST's Science for the People and President Duterte's commitment to promote science, technology and creative arts to enhance innovation and creative strategy. Further, as the only science center created by law, NAST visualizes the PSHC becoming a world class	Nationwide		LFP	2018	2019	-	100,000,000.00	75,000,000.00	-	-	-	-	175,000,000.00

3666	UP-0089	Renovation of Vinzons Complex (UP DILIMAN)	CHED	UP	chapter 19	Vinzons Hall is a heritage building that needs to be renovated to ensure its structural integrity and general safety, and to improve its overall functionality. It has never been comprehensively renovated since it was constructed in 1958. Previous efforts were initiated to achieve general improvement in its use of space and over-all appearance so that it may effectively become a Center of Student Activities and Services in UP Diliman. However, these are still lacking in terms of meeting the needs of the end users. An upgrade of these existing facilities and its overall carrying capacity (electrical, hydro and sewer, communications, waste disposal, parking, etc.) would result into the projected improvements in the services of the units within it. This is better undertaken comprehensively and systematically to ensure safety, cost-efficiency, and aesthetic uniformity.	Region-Specific	NCR	LFP	2018	2020	-	500,000,000.00	-	-	-	-	-	500,000,000.00

3710	PSHSS-OED-0232	REPAIR AND REHABILITATION OF SCHOOL FACILITIES - Main Campus	DOST	PSHSS-OED	chapter 19	As a premier secondary school in the country, it is imperative to continuously provide government scholars well-maintained and well-equipped facilities. Other buildings of the Main Campus were built more than 20 years ago and thus, require immediate major rehabilitation. The existing wall partitions of the dormitories and classrooms are still made of ordinary plywood on wood frames. Considering the length of time that these partitions existed, it is just right to say that these wall partitions are already fire hazard and will not even meet the required fire rating which is 1 hour of the Bureau of Fire Protection. Ceiling boards of the building also need to be rehabilitated because of the current dilapidated condition. An estimated 5000 sq. m. of ceiling will be removed and replaced.	Region-Specific	NCR	LFP	2020	2020	-	-	-	10,000,000.00	-	-	10,000,000.00
3711	DICT-0002	Repair and Renovation of DICT Five-Storey Building with Mezzanine	DICT		chapter 19	The Project shall address the inadequacy of office space to house the DICT workforce and equipment/facilities (data center, PKI servers, training centers, etc) as well as the security of the high-risk infrastructures (servers, connectivity equipment, power facilities, etc) and record. It will also address the audit exposure on the use of rented building, while DICT-owned buildings are available. The Project aims the following: a. Provide a work-conducive environment to DICT employees; b. Make the DICT building complaint to the latest provision of the Philippine building Code; c. Promote the welfare and safety of the DICT employees and properties; and e. Maximize the use of existing DICT buildings and do away with building rentals. 3712	PTRI-0001	Repair and Renovation of PTRI Main Building	DOST	PTRI	chapter 19	<p>The continuous repair and renovation of the PTRI administration and laboratory building built in 1970 will provide better work environment for employees to become more productive and for proper management of office, laboratory supplies and equipment.</p> <p>The PTRI is licensed by PDEA to procure and use Controlled Precursors and Essential Chemicals (CPECs) for research and development activities and technical services. Licensed operators like PTRI must ensure proper and secure storage and safekeeping for these regulated chemicals, else the license may be revoked. The renovation of the chemical storage room is necessary to provide secure and proper storage area of the controlled chemicals. Currently, the storage room has no ventilation, which is not safe especially because most of these chemicals released toxic fumes. The chemicals are placed in a wooden delapidated shelves which is not recommended is not recommended for proper storage. For security purposes, CCTV camera should be in place to monitor the area. The CDABUS chemical storage room needs to be expanded to accommodate the chemicals of the section. Installation of chemical storage cabinets, exhaust fans, CCTV camera; Further, rehabilitation and repair of existing ceilings and roofing - interior and exterior repainting; expansion of the CDABUS chemical storage room are very necessary.</p> <p>Scope of works cover the rehabilitation of the dilapidated windows (3rd to 5th floor), installation of sprinklers, renovation of comfort rooms including cubicles intended for female and male Senior Citizens and PWD, renovation of the PTRI chapel and passage way, provision of storage cabinets for R & D Laboratory particularly in the Chemicals, Dyes, Auxiliaries and By-product Utilization Section(CDABUS).</p>	Region-Specific	NCR	LFP	2008	2019	2,000,000.00	11,200,000.00	11,000,000.00	-	-	-	-	24,200,000.00
3713	PTRI-0004	Repair and Renovation of PTRI Silk Loom Weaving Building, Technology Center, Misamis Oriental	DOST	PTRI	chapter 19	<p>The PTRI Silk Loom Weaving Building in Technology Center, Villanueva, Misamis Oriental was constructed in 1976. The building was designed to be used as rearing house of commercial silkworm breeds. However, since its last repair in 2005 particularly the repair of roofing, gutter and provision of ceiling, funded from PhD Re-Entry Project of the then OIC, TCMO, silkworm rearing in the facility had been discontinued due to disrepair and dilapidated condition of the facility. With efforts to revitalize sericulture in Mindanao, rehabilitation of said building is even more warranted. The rearing function of the loom weaving building will be used to accommodate increased cocoon production capacity of TCMO. In addition, a small-scale filature facility will also be housed in the said building to process cocoons into reeled yarns for handloom weaving.</p> <p>Scope of works to be done:</p> <ul style="list-style-type: none"> - Roof replacement - Ceiling installation - Gutters installation - Doors replacement - Installation of electrical and water system - Provision of cocoon storage room with dehumidifier - Provision of cocooning frames, rotary frames and sorting tables - Provision/rehabilitation of lighting and ventilation system (windows and exhaust system) - Provision of supply room to accommodate cocooning frames, rotary frames and sorting tables - Flooring renovation - Interior and exterior re-painting - Rehabilitation/provision of comfort rooms - Provision of small office area/room 	Region-Specific	Region X	LFP	2017	2018	3,055,000.00	1,500,000.00	-	-	-	-	-	4,555,000.00

3740	ITDI-0002	Repair/Renovation & Maintenance of ITDI Buildings & Facilities	DOST	ITDI	chapter 19	The project involves the structural integrity assessment and retrofitting of ITDI buildings. PHIVOLCS report on Taguig shows that some of the faultlines traverse the DOST Compound in Bicutan at/near the ITDI Buildings. Majority of ITDI's buildings are more than fifteen years. Some of them have been constructed as early as the 70s. This means that the structural warranty of the designers have already lapsed. Noticeable cracks have appeared in the walls, columns, stairs and floors of some of the buildings as per DPWH inspection. Tests conducted showed results below minimum limit. It is in the light of the exigency and safety with the recent forecasts of impending earthquakes that this project is being proposed. This may include application of termite treatment, water proofing, repair of floor finishes, ceiling, exhaust system, repainting and other various repairs. Repairs are done on a need basis. Most of the repairs and upgrading works are undertaken in relation to the improvement services and protection of government assets. 3744	BSCAST-0008	Restoration of Gabaldon Building (Phase 1)	CHED	BSCAST	chapter 19	The BSCAST Gabaldon Building is the oldest building in the campus serving as a remnant of its history during the early years of its establishment. This building has been housing the high school department of the institution to present day. Currently, the building is in near dilapidating condition primarily due to age and neglect. The school administration and the alumni association has manifested interest in the restoring the Gabaldon building in the campus to its original state to serve as the landmark and identity of the institution. This will also serve as a school museum to house the institution's rich history and imbibe pride to the entire BSCAST community. 3783	DPWH-0231	Sayre Highway By-Pass Road (Climbing Lanes) incl. Slope Protection, (Maloko Section)	DPWH		chapter 19	The project is a two (2) lane by pass road (Climbing lanes) and it will start at Kulaman Bridge, Sayre Highway towards eastern part of Barangay Maloko intersecting also the Sayre Highway. The road runs through a flat and mountainous terrain. The proposed road stretches 2.144 kms. road opening. This project aims: provide an alternate route; reduction in Travel Time; provide easy travel for trucks and trailer trucks.	Region-Specific	Region X	LFP	2015	2017	150,000,000.00	-	-	-	-	-	150,000,000.00
3784	DPWH-0230	Sayre Highway By-pass Road (Climbing lanes) incl. Slope Protection, Carmen - Puerto Section	DPWH		chapter 19	The project is a four (4) lane road and will start at Jct. Puerto/BCIR 300 meters from Puerto Flyover and will end at Jct. Sayre Highway/Carmen Hills. The road runs through a rolling and mountainous terrain. The proposed road stretches 3.652 km. road opening. This project aims to: to reduce traffic congestion along Puerto Æ Carmen Hill Section and Jct. Puerto by diverting traffic coming from Bukidnon using Puerto Æ Carmen Hill Diversion Road; improve accessibility to MCT Tagoloan, Misamis Oriental; to guide and support planned urban development; to use the existing Puerto Æ Carmen Hill along Sayre Highway as climbing lane under the Mindanao Logistics Infrastructure Development; reduction in travel time/ transportation costs.	Region-Specific	Region X	LFP	2015	2018	200,000,000.00	33,350,000.00	-	-	-	-	233,350,000.00
3785	DPWH-0248	Sayre Highway Parallel Road I (Libona - Manolo Fortich - Impasug-ong Section)	DPWH		chapter 19	The project is a two (2) lane Parallel road outside of the buffer zone with different access road from the municipalities at the foot of Mt. Kitanglad Range National Park. The Parallel road stretches 122 km. and access roads of 75 km. traversing existing barangay/provincial roads and road opening. This project aims: will contribute to the economic development and enhance international and domestic investment for agriculture particularly tea plantation in the upland areas. The tea leaves are for export to other countries, such as Russia, Great Britain and Pakistan; boost more tourism development in the area and development of more road networks connecting tourists destination around Mt. Kitanglad Range Natural Park; accelerate the socio-economic growth of the local government units hosting the tourism sites as well as the entire region; draw more tourists to these areas as well as boost local employment opportunities; improve peace and order. 3787	UP-0094	School of Management Building Phase 3 (UP MINDANAO)	CHED	UP	chapter 19	The School of Management is envisioned to be the Center of Excellence in Supply Chain and in Food and Agribusiness Systems (one of UP Mindanao's niche). The building shall house the case rooms/classrooms of undergraduate and graduate students including the school's library. It shall be a venue for discourse, presentation and knowledge-sharing of scholarly outputs from researches which may be applied to and/or transferred to stakeholders. It shall be one of the four major buildings in the School of Management Complex. The exterior perspective/facade of each structure shall be identical but facilities inside them shall depend on the needs of the SOM. The facility shall follow the principles of green architecture and sustainable design to ensure a secure and pedestrian-friendly environment for its users, and setting an example for other developments of a similar nature. 3796	APECO-0007	Sewage Treatment Plant Phase 2	APECO	APECO	Chapter 19	A sewage treatment plant is also known as a domestic wastewater treatment plant. Basically, what the process involves is cleaning up the sewage which is released from domestic and commercial sources. Normally this doesn't involve cleaning up waste which is released from particularly dirty sources, for example, heavily industrial companies or factory farms of nuclear reactor coolants. The treatment of wastewater is divided into three phases until the sludge is totally treated to be considered waste.	Region-Specific	Region IVA	LFP	Apr-18	Oct-18	-	25,000,000.00	-	-	-	-	25,000,000.00
3797	PSA-0003	Sewerage Treatment Plant (Design and Build)	NEDA	PSA	Chapter 19	The sewerage treatment plant is a design and build project that will serve the occupants of the four buildings at the PSA Complex. The Sewerage Treatment Plant (STP) will be constructed at the back of the 23 storey PSA Building. The sewerage will treat the waste liquids from toilets, baths, showers, kitchens and sinks draining into sewer including liquid waste. The separation and draining of household waste into greywater and blackwater is becoming more common in the developed world, with treated greywater being permitted to be used for watering plants or recycled for flushing toilets. The proposed STP is measured at 12 m x 20 m.	Region-Specific	NCR	LFP	2018	2018	-	50,000,000.00	-	-	-	-	50,000,000.00

3833	DICT-0013	Spectrum Policy Assessment System (National Spectrum Monitoring System)	DICT		chapter 19	There is a need to assess the implementation of spectrum policies in the Philippines and to formulate the identified reforms for possible renovations. This projects embarks in establishing an enabling system. This Project will institute the installation of an infrastructure and revision of policy framework for national spectrum usage. This Project was funded by 2015/2016 GAA wherein 550 spectrum sensors or Fixed Spectrum Gathering Units (FSGU) will be deployed on the third quarter of 2017 in a nationwide scale. This will address the Operations and Maintenance of the Project for sustainability and to determine an alternative to additional FSGU by deploying mobile collection approach.	Nationwide		LFP	2015	2020	-	37,422,920.00	34,722,920.00	40,122,920.00	-	-	112,268,760.00
3834	UP-0101	Sports Complex Building (UP MINDANAO)	CHED	UP	chapter 19	The Sports Complex Building which shall be located in the Davao City at University of the Philippines Sports Complex is envisioned to be the home of the country's leading aquatics/swimming athletes. It will house an Olympic-sized competition pool, a diving pool, and a warm-up pool, and will have a seating capacity of approximately 2,400. As required by the Federation Internationale de Natation (FINA: International Swimming Federation), it shall also include locker rooms, massage room, a gym, media room, holding room, medical room and the like. The proposed Phase 1 of the development will prioritize the construction of the 50m x 25m competition pool and essential support spaces such as the filtration and boiler rooms, toilet and shower rooms, and offices. The projected Phase 2 of the facility shall include the installation of the 14-meter deep diving pool, a 25m x 10m learner pool, the spectators' seats, and the other essential rooms as well as other equipment/furniture as required for FINA. 3855	DICT-0032	Strategic Engagement and Collaboration to Undertake a Reliable Efficient Government Internet (Secure GovNet)	DICT		chapter 19	SECURE GovNet, initially names Luzon Bypass Infrastructure Project, is a shared infrastructure project that will allow international submarine cable owners to bypass the earthquake prone Luzon Strait. In exchange for the shared use of the Luzon Bypass Infrastructure, international submarine cable owners will share is fiber optic cables with the DICT and BCDA. SECURE GovNet was conceived to improve the internet speed and quality, and to significantly reduce the cost of the government's internet expenses. It is also regarded as an opportunity to provide reliable internet services especially to the far-flung provinces and communities in the Philippines to promote comprehensive development across the country.	Nationwide		LFP	2016	2020	22,083,570.96	22,083,570.96	97,500,000.00	97,500,000.00	-	-	239,167,141.92
3856	NEA-0003	Strategized Sitio Electrification Program (SSEP) for Off-grid Rural Electrification Through Renewable Energy (RE)	DOE	NEA	chapter 19	The NEA- Office of Renewable Energy Development (ORED) ensures universal access to modern energy services, increasing the rate of improvement of energy efficiency measures and accelerating the share of renewable energy in the national energy mix. The development plan of ORED is to replicate and scale up the successful business models of RE-powered mini and micro-grids (e.g. DASURECO and ASE micro hydro power plants) and even RE diesel hybrid systems (Cobrador, Romblon). The Renewable Energy (RE) systems will deliver a 24-hour electricity service to remote areas where extension of lines is not feasible. Expected outcome: extended hour of electricity supply, better quality of life, improved social welfare, increase revenue streams of ECs, lower generation of operations and maintenance, decrease dependency on diesel fuel and accelerated total electrification. 4403	BU-0012	University Gym/Convention Center / DRRM Facility	CHED	BU	chapter 19	This facility shall house the University gymnasium for its sports activities. It shall also serve as the venue for the commencement exercises. In case of natural disasters, this facility can be a venue to house people from disaster risk areas or a headquarters to package goods for relief operations.	Region-Specific	Region V	LFP	2019	2021	-	-	125,000,000.00	125,000,000.00	125,000,000.00	-	375,000,000.00	
4404	UP-0107	University Library and Knowledge Center (UP LOS BANOS)	CHED	UP	chapter 19	<p>The University Library (formerly, the UP College of Agriculture Library) was established at the founding of the College of Agriculture in 1909. It has the most comprehensive collection of scientific literature in agriculture and allied sciences in the country. This wealth of information was not only acquired from various sources worldwide but also from knowledge that the University itself generates. It is mandated to deliver information services and proactively support the University's trinity function: teaching, research and extension.</p> <p>The Main Library building (now named Bienvenido A. Gonzales Bldg.) was completed in November 1972. For its 43 years of operation in this building, spaces for office, reading and collection have adjusted several times to give way and meet the ever-changing needs of the library clients, specially the students and the directives from the UPLB administrators.</p> <p>Even with the limited space, the Library is able to practice modern services, which is not only as information provider but also as a facilitator of learning. Hence, this project shall further upgrade the current limited facility with non-obstructive studying as well as for academic discussion areas, better access to information and an enabling environment that encourage the development of life-long learning skills, collaboration and creativity. It is then expected for our students to develop an academically excellent in doing research and for the University to produce and information literate, quality graduate and life-long learners.</p>	Region-Specific	Region IVA	LFP	2018	2020	-	143,019,000.00	123,722,810.00	472,855,875.00	-	-	739,597,685.00

4416	MIRDC-0042	Upgrading and Expansion of the Materials and Process Research Division's Surface Engineering Building	DOST	MIRDC	chapter 19	The Surface Engineering Building was built 40 years ago with floor area of 900 sq m. In 2012 minor renovations of the building were done to repair some electrical wiring, sewer lines, ceilings, walls, windows, doors and floorings which have deteriorated due to wear and tear and exposure to extreme heat, dust and vibration. But due to limitation of budget during the building renovation, there is still a need to repair hallways, lobbies, parapet, lobby, ceiling, walls, and stairs including expansion of rooms and toilets. In addition, here are new equipment which are expected to be added to the surface engineering Building. These are facilities that will cater to the needs of the Aerospace Industry, such as Vacuum Heat Treatment, Induction Heating, Vacuum Carburizing, Cryogenic Treatment, Nitriding, Chromic Anodizing Facilities, etc. Hence the upgrading and expansion of the existing building to house these facilities is required. With the building's upgrading and expansion, the Center can efficiently provide services, consultancy, research and development and training related to Surface Engineering. Also, new equipment and facilities such as Vacuum Heat Treatment, Induction Heating, Vacuum Carburizing, Cryogenic	Region-Specific	NCR	LFP	2019	2020	-	-	12,000,000.00	53,000,000.00	-	-	65,000,000.00
4417	PTRI-0003	Upgrading and Expansion of the PTRI's Technology Business Incubation (TBI) Building	DOST	PTRI	chapter 19	With the expansion of the building brought about by Phase I, the layout will follow a logical material flow and will allow more efficient production and application of natural dyes. In addition to the function of the TBI to provide an adequate area for natural dyes processing services, the building functions to accommodate incubatee for technology immersion towards commercialization and business sustainability. It is also important that the incubatee be provided with office space for their operations. The scope of works to be done: - Installation of partitions to allocate specific locations for each process i.e., chopping, extraction, spray drying, dyeing, washing, packaging/storage - Installation of an office (mezzanine) inside the building - Installation of signages within and outside the building - Provision of storage cabinets for the dye powders and dyed textiles	Region-Specific	NCR	LFP	2017	2018	2,000,000.00	2,000,000.00	-	-	-	-	4,000,000.00

4421	PNRI-0008	Upgrading of ARC Building	DOST	PNRI	chapter 19	The ARC building was constructed in the mid 1960's and became operational in the early 70's. It houses several laboratories which include various Chemistry Laboratories, Applied Physics Laboratories, Biomedical Laboratories, Health Physics Laboratories, Nuclear Analytical Techniques Laboratories and Nuclear Materials Laboratories. Being in existence for more than forty (40) years, the building is already dilapidated, the waterlines are broken and the electrical system needs a lot of upgrading and repair to be compatible with the new acquisition of equipment both locally purchased or donated by international organizations. The various laboratories also need redesigning to meet the various project requirements as well as keep up with the ISO certification needs. The first phase is funded in 2014 amounting to 11.923M. The second phase (2015) requires 15M and will include the upgrading of the Chemistry Tritium and IRMS Laboratories, Upgrading of the Nuclear Analytic Technology Application (NATA) main laboratories as well as the NATA basement laboratories. This will also include the general electrical system, overall waterlines and water supply, roof waterproofing, among others. Likewise, the Bioaccumulation Laboratory will be upgraded. 4423	PNRI-0009	Upgrading of Entomology Modular Laboratory	DOST	PNRI	chapter 19	The Agriculture-Entomology research laboratory at PNRI needs immediate repair and renovation. The laboratory houses several agriculture-entomology research projects on the development of sterile insect technique for dengue mosquitoes, Aedes aegypti and on the rearing of fruit flies for planned biological control projects for this pest which is a major pest of mango and other fruit crops. The laboratory can also be used for the conduct of quarantine treatment studies using irradiation for the enhancement of competitiveness of export commodities. The items of work being requested are really necessary for the completion of the projects which include among others renovation of the electrical system of the laboratories, wiring of telephone and LAN; renovation of the power supplies of the fruit fly diet mixer, among others. The items of work being requested for the the upgrading were part of the original scope of work which were deleted due to limited funds. For 2017-2019, there is a need to provide a storage house, screen house and laboratory tables, glassware drying racks in the newly upgraded entomology laboratories, including provision of aluminum window screens, repainting of covered pathways and roofing of extended wash areas. 4455	UP-0121	Utilities Control Center (UP MINDANAO)	CHED	UP	chapter 19	The Power House and Water Pump House is a 5,000 sq m development envisioned to cater for control of two main utilities that cater to the needs of the whole campus. It will provide power and water supplies and shall house the green power generating/storage depot and clean water recycling/storage depot. With the vast and various developments that are envisioned to be built inside the campus, the establishment of this facility shall lessen the cost of utilities since green plans and designs shall be utilized. With the green plans/designs, it will also produce its own utility supplies that shall shoulder a big portion of the campus' consumption.	Region-Specific	Region XI	LFP	2018	2020	-	96,000,000.00	-	-	-	-	-	96,000,000.00
4456	PNRI-0010	Utilization of Philippine Research Reactor -1 Triga Fuel Sub-Critical Assembly	DOST	PNRI	chapter 19	The project is part of the Institute's mandate which is to promote the utilization, research and development nuclear science and technology in the country. Nuclear technology has invaluable contributions to health care, agriculture, energy production and industries worldwide. In the Philippines, hundreds of facilities are using nuclear technology. There are a) about 70,000 procedures per year using Tc-99m & I-131 for nuclear imaging, b) more than 60 nuclear medicine facilities, more than 20 centers planned by the DOH, c) 1,000 procedures for PET/CT scans (2015), and d) 60,000 radio-immunoassay procedures (2015). In addition, PNRI licenses about 360 facilities which uses radioactive materials, 43% of which are from industry and 27% from medical sector. In 2015, a total of 7,300 Ci of Ir-192 was imported for NDT and cancer treatment. The country has 2 medical cyclotrons for PET isotope production. In total there about 12,000 radiation workers in the country. This project therefore aims to establish a nuclear facility that will be used for a) education, training and manpower development of the existing and future nuclear workforce and b) research and development in nuclear science and technology. The objective of the project is to establish an operational nuclear facility using the Philippine Research Reactor - 1 (PRR-1) as a TRIGA Subcritical Assembly (SA). The facility will be used education, training and research in nuclear science and technology. In particular, the project will a) design and construct the SA, b) acquire and install the needed instrumentation, electromechanical components and equipment, and c) develop the manpower involved in the project.	Nationwide		LFP	2017	2020	5,000,000.00	9,350,000.00	6,000,000.00	2,000,000.00	-	-	-	22,350,000.00
4457	DPWH-0235	Valencia By-pass Road Extn. incl. Bridge and ROW, (Lantapan - Bagontaa section)	DPWH		chapter 19	The project is a two (2) lane road and will start at Jct. Aglayan-Alanib-Ticalaan Road (Aglayan-Basak) passing Alanib River and Manupali River and ends at Jct. Lilingayon-mountain View College Road. The road runs through a flat, sloping and rolling terrain. The road stretches 3.90 km in an existing gravel/earth barangay road. This project aims: to provide an alternate road in going to Valencia City; to develop tourism spots in the area; to reduce travel time; to enhance agricultural development in the area.	Region-Specific	Region X	LFP	2017	2018	125,000,000.00	120,250,000.00	-	-	-	-	245,250,000.00	
4458	DPWH-0226	Valencia By-Pass Road incl. Bridge and ROW	DPWH		chapter 19	The Proposed road will start at Brgy. Mailag, passing Brgy. Barobo and end in Brgy. Lumbo, Valencia City. It will traverse vast agricultural lands. Scope of Works includes construction of about 12.78 kms. Gravel road and one bridge with a length of 20 l.m.	Region-Specific	Region X	LFP	2014	2018	190,000,000.00	44,700,000.00	-	-	-	-	234,700,000.00

4466	UP-0122	Veterinary Medical Research Institute - Training Hospital Component (UP LOS BAA'OS)	CHED	UP	chapter 19	The Veterinary Medicine Hospital serves a triad of functions including the care and treatment of animals, the conduct of animal research activities and the teaching and training of students of the College of Veterinary Medicine. Also known as the vivarium, this is a specially designed building type, which accommodates exquisitely controlled environments for the care and maintenance of animals for purposes of observation or research. The facilities are complex, and expensive to build and to operate, but they are vital to the support of a proper, safe, and humane management of the animals brought to this facility. It is not sufficient to design according to space functions and circulation based on human movements. Various environmental systems are necessary to control the spread of diseases and ensure the health of animal patients. These systems need to be coordinated with the arrangement of spaces because it is not only human and animal circulation that needs to be considered. The flow of wastes, air and air particulates are all necessary considerations to maintain the environmental quality of the facility.
